ACCSC Graduation and Employment Outcomes Disclosure

FVI School of Nursing and Technology is accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC).

In accordance with the ACCSC Standards of Accreditation, accredited institutions are required to calculate and publish Graduation and Employment (G&E) statistics using ACCSC's prescribed methodology.

Pursuant to these standards, FVI School of Nursing and Technology provides the following Graduation and Employment (G&E) outcomes for each program for the July 2026 reporting period. These rates are calculated in accordance with ACCSC's established definitions, reporting procedures, and allowable exclusions.

The publication of this information is intended to promote transparency and provide prospective and current students with clear and accurate information regarding student achievement and employment outcomes.

				Report Date:	July 2026	
				Campus:	Miami	
Start Date	**End Date**	**Program Length (In Months)**	**Graduation Rate Benchmark**	**Program Name**	**Graduation Rate**	**Placement Rate**

Definitions:

Graduation Rate = Graduates ÷ Students Available for Graduation

Employment Rate = Graduates Employed in Field ÷ Graduates Available for Employment

Students Available for Graduation includes all students scheduled to complete within the reporting period, excluding those with ACCSC-approved exemptions.

Graduates Available for Employment excludes graduates unavailable for employment due to continuing education, military service, medical limitations, incarceration, death, or other allowable exclusions under ACCSC guidelines.

Graduates Employed in Field includes graduates employed in positions directly related to the program of study, as defined by ACCSC.
