PRESIDENT’S MESSAGE

Florida Vocational Institute’s (FVI) is a leading career school committed to preparing students for in-demand jobs in nursing, healthcare and technology fields. Through our School of Nursing and our School of Technology, we offer a variety of short-term programs that enable students to achieve their career goals as quickly as possible. Our purpose is to give people with potential the power to succeed. For us that means that our students leave FVI highly qualified, confident in their abilities and ready for potential employment opportunities that align with their goals.

FVI also build its education curricula based on employer partners’ needs. This enables companies to quickly fill their most in demand roles with our qualified graduates-people who have the skills and certifications needed to get to work immediately.

We focus on you learning real-world skills required to be ready for a career in healthcare, nursing and information technology. Currently, the demand for healthcare and information technology professionals is growing rapidly*. Majority of programs can be completed in less than a year giving you an opportunity to get your career started quickly.

HISTORY

Florida Vocational Institute (FVI) opened in February 2007 at 6840 S.W. 40th Street in Miami, Florida. After outgrowing the original facility, FVI moved in 2014 to its current location at Mall of the Americas, 7757 W. Flagler Street, Suite 220, Miami, Florida, 33144.

Florida Vocational Institute (FVI) opened an extension (branch) campus in March 2018 at 3520 Enterprise Way in Miramar, Florida. The Miramar campus is an approved extension campus of the Main campus, Florida Vocational Institute-Miami located at Mall of the Americas, 7757 W. Flagler Street, Suite 220, Miami, Florida, 33144.

Florida Vocational Institute (FVI) is licensed by the State of Florida, Commission for Independent Education (CIE). Florida Vocational Institute (FVI) is accredited by Council on Occupational Education (COE) ID# 312400 since November 03, 2010.

EDUCATIONAL PHILOSOPHY

We believe everyone who wants a career opportunity should be able to achieve that goal. Florida Vocational Institute (FVI) focuses on providing high quality instruction and hands-on learning for our students. We believe that providing a path to a new career through education is one of the advantages people have in this country. We believe that education should be based on the careers that are in demand in our community and should prepare our students for careers as quickly as possible

SCHOOL MISSION

Florida Vocational Institute’s mission is to educate and prepare students to become entry-level professionals in high demand careers. We aim to improve employability and inspire lifelong career growth, thereby improving the lives of individuals in our community.

FVI’s School of Nursing’s mission is to develop student knowledge, skills, and competencies to provide safe and effective care, promote the health and wellbeing of the client, and enter the profession of nursing serving a diverse community.

FACILITY AND EQUIPMENT

FVI offers its students modern facilities providing an atmosphere conducive to learning. Florida Vocational Institute’s main campus located in Miami, Florida is 15,839 square feet of classroom, labs and administrative space. Similarly, the branch campus located in Miramar, Florida is comprised of 29,747-square feet of space.
Both facilities include fully equipped classrooms, medical and computer labs, a student lounge, a reception area, a library/resource information area with available hard references, as well as online databases of journals and information and administrative offices.

At each facility, bathrooms are in compliance with the Americans with Disabilities Act guidelines. There is ample parking for the students, including an elevator to access the school facilities. Each facility is located close to public transportation and local restaurants.

HOURS OF OPERATION

The school’s Administration and Student Services offices are open Monday through Thursday from 8:30am to 8:00pm. and Friday from 8:30am to 5:00pm. Classes are scheduled Monday through Friday from 8:30am to 10:30pm.

STATEMENT OF AFFIRMATIVE ACTION

Florida Vocational Institute (FVI) admits students of any sex, race, creed, color, age, disability, national origin, religious beliefs or political affiliation with all the rights, privileges, programs and activities generally accorded or made available to students at the school. It does not discriminate based on sex, race, creed, color, age, disability, national origin, religious beliefs or political affiliations in the administration of its educational policies, admissions policies, job placement assistance and any other school administered programs.

SPECIAL NOTE

Information in this catalog is accurate at the time of publication. The school reserves the right to change courses of study, course content, fees, program requirements, class schedules, and academic calendar, or to make other changes deemed necessary or desirable, giving notice of change whenever possible. Students already enrolled will not be affected by tuition increases or changes.

INFORMATION SHARING & THE FAMILY EDUCATION RIGHTS AND PRIVACY ACT OF 1974 (FERPA)

FERPA

The Family Rights and Privacy Act of 1974, as amended, (commonly known as the Buckley Amendment) is a federal law which provides that schools will maintain the confidentiality of student education records. The law basically says that no one outside the institution shall have access to students’ education records nor will the institution disclose any information from those records without the written consent of students. There are exceptions, of course, so that certain personnel within the institution may see the records, including persons in an emergency to protect the health or safety of students or other persons.

Directory Information

In compliance with FERPA, the following statement reflects Florida Vocational Institute’s policy:
The following directory information may be released by telephone: a) student’s dates of attendance; b) date of graduation and degree or certificate earned. Other kinds of directory information, such as a student’s address, telephone listing, program of study, awards received, and the most recent previous education agency or previous institution attended, will be released only in response to a written request. reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know. Information regarding the student’s record: grades, courses, GPA, social security number and other personal information will not be released without the student’s written consent.

However, the Act states that each student has the right to inform the school that any or all the information is not to be released. No information will be released without the written consent of the student. This status is binding until such time that Florida Vocational Institute (FVI) is notified in writing by the student to permit release of “directory information”.
Parental Access to Children’s Education Records

At the postsecondary level, parents have no inherent rights to inspect a student’s education record. The right to inspect is limited solely to the student. Records may be released to parents only under the following circumstances: (1) through the written consent of the student, (2) in compliance with a subpoena.

Posting of Grades by Faculty

The public posting of grades either by the student’s name, institutional student identification number, or security number without the student’s written permission is a violation of FERPA.

Responsibilities of the Staff Member

Florida Vocational Institute (FVI) employees may have access to student education records. Their confidentiality, use, and release are governed by FERPA. The utilization of this information is governed by the regulations and the duties and responsibilities of employment and position. Unless the job involves release of information and the employee is trained in that function, any requests for disclosure of information, especially from outside the school should be referred to the Director of Education and/or Campus President. Release of information contained on a student’s record without the written consent of the person identified on the document is in violation of Sec. 438 Public Law 90-247.

Information Release via Telephone

No information concerning any student is released to any individual, group or organization via telephone, cellular phone or other similar devices unless that individual, group or organization is involved in the awarding and processing of student’s Title IV aid.
ADMISSIONS POLICY

Admissions Requirements and Procedures

Florida Vocational Institute (FVI) affirms a policy of equal employment opportunity, equal educational opportunity, nondiscrimination in the provision of educational training to the public and administering all educational services.

General Admissions Requirements

To be eligible for general admission, the applicant must meet the following requirements:

- The applicant must be seventeen years of age or older at the time he/she starts his/her program. If the applicant is under 18 years of age, a parent or guardian must sign and agree to the terms and conditions of the enrollment agreement.

- The applicant must complete an initial interview with an Admissions Representative. It is the policy of the school not to allow any enrollment unless the prospective student visits the facilities. An Admission Representative will explain to the applicant the school programs and policies during the interview.

- The applicant must provide a valid driver’s license, state ID with photo, or valid passport.

- The applicant must be a high school graduate or possess the recognized equivalent of a high school diploma. The applicant must provide documentation of graduation from a high school or school in the form of a valid high school diploma, GED certificate, a higher earned degree, an official high school or GED transcript showing graduation date or other acceptable official documentation which confirms that the applicant meets or exceeds the academic achievement equal to a high school diploma in the USA. Documentation of proof of completion of secondary education from a foreign country must be officially certified as the equivalent of high school completion in the United States.

Note: Due to the passage of the Consolidated and Further Continuing Appropriations Act of 2012, applicants who do not have a high school diploma or equivalent and did not complete secondary school in a home-school setting can no longer gain eligibility for Title IV, HEA funds by passing an “ability-to-benefit” test unless the applicant previously attended an eligible program at any Title IV institution prior to July 1, 2012 then the applicant may continue to establish Title IV eligibility in any eligible program under one of the ATB Alternatives as a “grandfathered student”. If an applicant meets the “grandfathered test” then he/she may be admitted into the Medical Assistant, Patient Care Technician or Cyber Security and Network Technician programs upon demonstrating the ability to benefit (ATB) and successfully attaining a minimum score of 200 Verbal/210 Quantitative on Wonderlic Basic Skills Test and/or has satisfactorily completed 225 clock hours of post-secondary training in place of the ATB.

Accommodations for Students with Disabilities

The school is an Equal Opportunity Educational institution complies and does not discriminate in the recruitment of students based on gender, race, religion, color, creed, age, handicap, national origin, sexual orientation or any other protected characteristics. If an applicant or currently enrolled student requires academic accommodation and/or auxiliary assistance in conjunction with the admission process or their program of study, he/she should submit a written request to the School President.

Please submit copies of current documentation of a disability. Documentation must be provided by a medical expert within the last three years and include:

- A diagnosis of the disability;
- How the diagnosis was determined (what tests were given and the results); and
- A clinical summary, which includes an assessment of how the disability will impact the individual in a college environment and what accommodations are recommended.

Upon receipt of the formal written request, a meeting will be scheduled. The initial meeting, formal request, and response from the school must take place prior to any accommodations being made. The Dean and/or School President will work with the applicant or student to identify any reasonable accommodations/adjustments necessary to enable him or her to fully participate in the educational process.
Note: To be eligible for Title IV, HEA funding, you must be able to benefit from the reasonable accommodations.

- The applicant applying for the below programs must pass a Scholastic Level Exam (SLE) with a minimum score. The applicant is entitled to two attempts on the same day to achieve a passing score. In the event the applicant fails to achieve the minimum passing score after the second attempt, the applicant is eligible to retake the exam after a minimum of 24 hours has elapsed from the date of the second attempt. After these three attempts, the applicant can retake the test one more time 30 days from the date of the last attempt.

**Programs**
- Web Developer 14
- Cyber Security & Network Technician 14
- Pharmacy Technician 11
- Practical Nursing 16

**Diploma Programs**
- Medical Office Administration 14
- Associate Science in Nursing 16

- The applicant must pay the required Registration Fee and complete all tuition payment requirements.

- The applicant must complete and sign an Enrollment Agreement. If an applicant is less than 18 years of age, a parent or legal guardian must also sign the Enrollment Agreement.

  **Age Disclaimer:** Most employers will not hire a person younger than 18 years of age.

- The applicant entering a clinical training program will be required to pass a criminal background record check.

**Disclosure:** Presence of criminal convictions on record may make a student ineligible for state licensure and may prevent a student from being employed in the field for which they have been trained. Applicants are strongly encouraged to contact the Florida Business and Professional Regulations for information regarding a licensure application: www.myfloridalicense.com prior to enrolling.

**Additional Admission Requirements for the Nursing Programs**

- After achieving a passing SLE score, applicants will be given the opportunity to take the Evolve Reach Admission Assessment Exam (A2-RN) or (A2-PN). Applicants may be admitted to the Associate Degree in Nursing program with an **A2-RN score of 75% or higher** on (1) English Language Composite Score comprised of reading, grammar, vocabulary and (2) a score of **75% or higher** on Math Composite Score. Applicants may be admitted to the Diploma in Practical Nursing program with an **A2-PN score of 70% or higher** on (1) English Language Composite Score comprised of reading, grammar, vocabulary and (2) a score of 70% or higher on Math Composite Score.

  Prior to taking the Evolve Reach Admission Assessment, applicants will be provided an opportunity to purchase the study guide. Applicants are strongly discouraged from taking the assessment without completing the entire review workbook. If the applicant is unsuccessful after his/her first attempt, he/she should be directed to complete the HESI online remediation for at least one week before being allowed to take the assessment for the second time. Upon successful completion of the online remediation, one more opportunity to take the A2-RN or A2-PN will be permitted. Applicants can take this assessment **no more** than two times in a 12-month period. Applicants **must take** the admission assessment at the campus they are requesting admission.

  **Note:** Admission to the Nursing programs does not guarantee an applicant’s ability to participate in clinical training experiences, sit for a nurse licensing examination, or obtain employment as a professional nurse in this or any other state.

- An applicant will be interviewed by an admission representative and by the Director of Nursing.

- The program requires that the student be 18 years of age at the time he or she starts the clinical rotations.
• Applicants must submit to and pass a 10-panel drug-screening test and results must be in the applicant’s admission file before starting the program. Inconclusive test results (such as dilute sample and insufficient sample) will require the applicant to be retested at his/her expense. The applicant is responsible for the cost of the additional testing. The retest must be completed within 24 hours of receiving the notification on the first test. A second inconclusive test result (such as a dilute sample and insufficient sample) will be considered a positive drug test.

• Applicants must submit to and pass a criminal background check administered by the school prior to starting the program or being readmitted following a withdrawal period of 90 days. The conviction for certain criminal offenses may bar an applicant from participating in certain clinical training experiences, eligibility to acquire professional certification/licensure required to function in professional career fields and obtaining employment. Any adverse results, to include but not limited to, any felony or misdemeanor identified on an applicant’s background report that may prevent the applicant’s completion of the program, acceptance to externship/clinical training facilities, achievement of professional certification/licensure, and attainment of employment in a particular field.

Any applicant who has an adverse result on his/her background report is encouraged to seek approval from the certifying bodies of any applicable program to establish eligibility for certification/licensure and employment in that specific field. If an applicant with an adverse occurrence on his/her background chooses to participate in a program that requires a clear background for admission to clinical sites, eligibility to acquire professional certification/licensure required for employment in specific career fields and obtaining employment, he/she will be required to sign a disclosure document accepting full responsibility for any and all costs associated with attending the Nursing program, and does not hold the institution and its associates liable for being denied program completion, entrance to any and all clinical training facilities necessary for the completion of the program, ability to achieve certification/licensure, or gain employment in the field of study.

Note: Applicants/students are subjected to initial and ongoing criminal background checks prior, during, and at the completion of the program.

• Nursing students must complete clinical rotations off site at designated locations. The institution maintains signed agreements with these facilities. Students are reminded that, with few exceptions, clinicals are most often available only during daylight hours. Students must make themselves available to participate in assigned clinicals as required by the students’ program. Students must complete their clinical experiences in order to graduate from their program. The Institution does not assure that clinicals will be available in the immediate vicinity. Students must be able to travel to clinical sites that can be further than 50 miles away from the school. If a clinical experience is part of the students’ program, the student cannot graduate without successfully completing 100% of clinical requirements. Students are bound by the rules and regulations that govern the clinical site. Students are responsible for his/her own transportation to and from each clinical site.

• The applicant must submit a copy of his or her current (American Heart Association BLS Healthcare Provider Course) CPR card. This current CPR card must not expire prior to the last day of the current school year and must remain valid throughout the program. If the applicant does not have a CPR card, opportunities will be provided for this to be completed.

• The applicant must submit a signed Allied Health and Nursing Program waiver. Please note that some clinical sites may require that students have health insurance. The School does not provide health insurance for students.

• Since most clinical sites require that students have health insurance, the applicant must submit either a valid medical insurance card or a signed medical waiver form stating he or she is responsible for the costs of all medical services he or she may require.

• With the exception of Hepatitis B, all required immunizations must be completed prior to or within the first 6 weeks of the first academic term that the student starts school.

• TB test results must be submitted prior to within the first week of the first term that the student starts school. If the results are positive, the applicant must submit negative chest X-ray results.
• Hepatitis B immunization is administered in a series. Students must complete the initial dose of the Hepatitis B immunization by the first week of the first academic term in a nursing program. The entire series must be completed as outlined in the Nursing Programs Health and Clinical Requirements. Failure to submit all requirements may result in dismissal from the program.

When all the above noted nursing program requirements have been completed and submitted, the completed application file will be submitted to the Nursing Programs Admissions Committee for consideration. After the Nursing Programs Admissions Committee meets and completed its evaluations; letters of acceptance or denial are mailed to the applicants.

Health Clearance, Vaccinations and Immunizations

• Applicants must also provide a current history and physical from a licensed health care provider addressing physical and mental health. For the purpose of this policy, "current" is defined as within the past year. Documentation from the healthcare provider must state the applicant meets the essentials of fitness for professional nursing through the use of the Institutions physical and mental health form.

• The applicant is responsible for all costs associated with health clearance and immunization. Students in any nursing program are required to obtain influenza vaccination annually. Failure to comply with the health clearance, vaccinations, and immunization policy by the required date may result in the student being dismissed from the program.

• Applicants are required to submit documentation of a recent medical clearance by a physician or licensed advanced practice nurse prior to the first clinical course. Students are required to attest to their ability to perform skills and functions essential to nursing practice, and that are required for successful completion of the nursing education program.

• At a minimum, applicants will be required to lift patients, stand for several hours at a time, and perform bending activities. Applicants should prepare for the mental and emotional stressors that are also common to nursing practice. Applicants with existing conditions are responsible for maintaining personal health at a level that meets the standards of essential functional abilities with or without accommodation.

Essentials Abilities Standard for Nursing Students

The profession of nursing requires the caregiver to be physically and mentally fit to perform the duties of care. FVI has adapted the standards established by the National Council of State Boards of Nursing (NCSBN).

The nursing school will make appropriate academic accommodations to facilitate enrollment and participation of qualified individuals with temporary or permanent disabilities.

• The rights of applicants and students
• The safety of the applicant, student, classmates, and clients
• The significant clinical component of the program curriculum
• The requirements imposed by clinical agency agreements
• The condition for licensure as a Registered Nurse

The competing interest and the educational activities required to complete the Associate of Science in Nursing program may prevent some prospective students and active students with disabilities from qualifying for enrollment or continued enrollment.

Applicants who feel that they may have difficulty meeting the Essential Abilities Standards are encouraged to meet with the campus administrator to be evaluated for appropriate accommodations.

Additional Admission Requirements for the Pharmacy Technician Program

• The applicant must submit to and pass a criminal background check upon acceptance into the program. (No felony convictions that occurred within the last ten (10) years, and/or any conviction that was drug or pharmacy related).
Additional Program Requirements Required for Allied Health Externship/Clinical Experience

• The student must meet the following health and immunization requirements at least one term prior to the start of the externship/clinical portion of the training. 1) The student must either present documentation of having had Hepatitis B vaccination series or must complete the first two Hepatitis B injections at least 12 weeks prior to the start of externship. 2) The student must submit to and pass a drug screen in the term prior to starting externship. Disclosure: Any student whose test results turn out be inconclusive (such as a diluted sample) will be required to retest at his/her own expense. If a student fails a drug screen or refuses to submit to a drug screen, the student will not be eligible to start externship and will be dismissed from the program.

• All allied health programs require students to do clinical or externship work off site at designated locations. The institution maintains signed agreements with these facilities. Students are reminded that, with few exceptions, clinicals are most often available only during daylight hours. Students must make themselves available to participate in assigned clinicals/externships as required by the students’ program. Students must complete their clinical/externship experiences in order to graduate from their program. The Institution does not assure that clinicals will be available in the immediate vicinity. Students must be able to travel to clinical/externship sites that can up to 25 miles away from the school. If a clinical or externship experience is part of the students’ program, the student cannot graduate without successfully completing 100% of clinical or externship requirements. Students are bound by the rules and regulations that govern the clinical or externship site.

Nursing Program Health and Clinical Requirements

As a part of contractual agreements with clinical agencies, all nursing students must fulfill the following requirements per the current admissions policy. Failure to submit all requirements may result in dismissal from the program. All requirements must remain current throughout the program. It is important to note that the contracted clinical agency agreements are not negotiable in their requirements. Students who do not have documentation that evidences acceptable criminal background history, negative drug screen, immunization, and health clearance may not be accepted at the site.

Students are responsible for all costs of program immunizations and medical clearance required for admission and continuation within the nursing program. In addition, students are responsible for all costs that may be associated with injury or illness while on campus, in the learning laboratories, at a clinical experience, or while performing other campus/program related activities during enrollment in the nursing program.

1. Cleared Background Check

The applicant must submit to and pass a criminal background check and be cleared per School policy as well as appropriate State Board of Nursing rules and regulations. Students must maintain a clear criminal background while enrolled in the nursing program. Students must report to the Director of Nursing in writing, any change in their criminal background or status within 24 hours of occurrence (includes new citations and/or charges regardless of the pending or final adjudication). Students who fail to report any new citation or charge may be dismissed from the nursing program.

2. Negative Drug Screen

The applicant must submit to and pass a drug screen. Inconclusive test results, to include a dilute and/or insufficient sample, will require the applicant to be retested within 24 hours at his/her expense at a School designated collection center. A second inconclusive test result, to include a dilute and/or insufficient sample will be considered a positive drug screen. Students will not be granted admission to the nursing program with a positive, insufficient, dilute, or inconclusive test result. Random drug and alcohol testing may be done throughout the program. Failure to comply or the inability to provide a sample within one hour of the requested random drug/alcohol test may result in program dismissal. A dilute or insufficient sample result on a random drug screen will be considered a positive result. The student may be dropped from the program as per the Nursing Substance Abuse and Drug Screening policy.

3. Current BLS CPR Card

Basic Life Support (BLS) for Healthcare Providers certification by the American Heart Association must remain current while the student is enrolled in the nursing program. The School must maintain a current signed copy of the student’s CPR card within the student file. Students are required to have their CPR card on them at all times during class, laboratory,
and clinical activities. If the CPR card expires during the nursing program, the student may not participate in any clinical activities and may be dropped from the program. Missed clinical experiences will be considered an unexcused absence.

Students must sign and submit a current Health Care Declaration and the Essential Skills and Functional Abilities Forms. It is essential that nursing students can perform several physical and cognitive activities in the classroom, clinical, and learning laboratory components of the program. Students must immediately report any changes in their essential skills or functional abilities, to include any physical or mental health status changes, to the Director of the nursing program. Students may not attend clinical experiences while under any medication or medical treatment which may alter their perception and/or ability to provide safe patient care. It is the ultimate responsibility of the Director of the nursing program to make the final decision as to the student’s ability to participate in clinical activities. Failure to report a change in medical or mental health conditions as described above may result in the student being dropped from the nursing program. Students are required to report changes and/or additions in medication, new prescriptions, or changes in medical or mental health status to the Director of Nursing immediately (within 24 hours) and prior to participating in any clinical, laboratory, or simulation experience. Please note that some clinical sites may require that students have health insurance to participate in clinical experiences at their facilities. The School does not provide health insurance. Students must understand that they may not be allowed to participate in clinical experiences at such facilities and they may be dropped from the program if equivalent experiences cannot be arranged.

5. Immunizations

Proof of Immunizations are mandatory for every nursing student and will be verified as complete prior to the student being permitted to enter any clinical site (whether for the assigned course activities or for orientation at the clinical site prior to the course start).

Admissions staff will provide all new nursing students with information regarding the immunization requirements for participating in the education program. All students are required to sign the acknowledgement of information regarding immunization requirements.

Students will be provided information about the local resources for obtaining the immunizations if they have not had the required immunizations or do not have acceptable immunization documentation. Where the campus has an affiliation with a healthcare center the expectation is the student will use the center. Students may choose to obtain the immunizations from another healthcare provider; however, immunization documentation has to include specific information about the type of healthcare provider and the immunization/s administered and/or verified.

Failure to provide the required documentation no later than 10 business days prior to the start of 1st clinical session will result in suspension from the clinical portion of the program. No student will be permitted to enter a clinical site without having satisfied the requirement for immunization documentation. Students unable to participate in scheduled clinical sessions will be recorded as absent and may potentially risk failure of the entire course. Immunization requirements are generally based on the current recommendations of the Centers for Disease Control (CDC) for health-care workers and the Advisory Committee on Immunization Practices (ACIP). Clinical agencies may have additional health clearance and immunization requirements beyond the current recommendations outlined by the CDC or School policy. The School has identified a standard immunization policy but reserves the right to require additional healthcare clearance assessment, documentation, immunization, and serology testing at any point throughout the enrollment of the nursing program. In addition, immunizations and health requirements may change without notice and students may be required to provide verifiable documentation of their ability to meet new requirements. Failure to meet this requirement may result in failure to progress in the nursing program. Students may be responsible for the cost of any additional requirements.

Students are not permitted to participate in any clinical experiences if their immunizations do not meet the standards outlined in this document or those required by specific clinical agencies.

6. Serological Evidence of

Immunity Hepatitis B Vaccine

Students must demonstrate serological evidence of immunity to hepatitis B. For previously vaccinated individuals, serological testing must indicate immunity against hepatitis B. For those who have not been previously vaccinated, a series of three vaccines must be completed. If the student does not have proof of titers, he/she must submit
documented proof of receiving the first vaccination within the first week of admission. The second vaccination is to be
given one month after receiving the first vaccination. The third vaccination is to be given approximately five months
after the second. Proof of the first administration must be provided to participate in any agency based clinical
rotations.

The student must submit documented proof of completing the hepatitis B series six months from receiving the first
hepatitis B vaccination. Documented serological evidence of protection against hepatitis B (positive serology titer)
must be provided two months following the third vaccination for those individuals undergoing initial vaccination.

For non-responders or those who have not completed the series of hepatitis B vaccination, the individual should be
considered susceptible to HBV and should be counseled regarding precautions and prevention methods to reduce
exposure. Individuals may need to obtain HBIG prophylaxis for any known or probable exposure to hepatitis B
(HBsAg) surface antigen positive blood. For all non-responders or individuals exempt from hepatitis B vaccination
based on a valid healthcare provider recommendation, a vaccination waiver must be on file. Any individual who has
not completed the hepatitis B vaccination series and final serologic testing indicating immunity must maintain a
vaccination waiver on file.

Students assume all risk and expenses associated with potential exposure during a clinical experience. Expense
may also include testing of the patient in the event of an exposure.

Measles, Mumps, and Rubella (MMR)

Students should have received two doses of live measles and mumps vaccines given on or after the first birthday,
separated by 28 days or more and at least one dose of live rubella vaccine in their lifetime. Individuals must submit
proof
of immunity against measles, mumps, and rubella through serology testing or laboratory confirmation of the
disease. If serology results indicate that the individual is not immune or serological test results indicate
“indeterminate” or “equivocal,” individuals should be considered non-immune, and additional MMR vaccination
may be required in accordance with current CDC recommendations/guidelines.

Students are required to provide documentation to the School and maintain compliance with the immunization and
health clearance policy. Failure to complete required vaccinations, serology testing and/or provide documentation in a
timely fashion, may result in program dismissal. Varicella (Chicken Pox) Students must submit proof of varicella
immunity by providing documented serology evidence of immunity against varicella or laboratory confirmation of the
disease. If serology results indicate the individual is not immune, varicella vaccination is required in accordance with
current CDC recommendations/guidelines (two doses of varicella vaccine, four weeks apart). Students are required
to provide required documentation to the School and maintain compliance with the immunization and health
clearance policy. Failure to complete required vaccinations, serology testing and/or provide documentation in a timely
fashion, may result in program dismissal.

Tetanus, Diphtheria, Pertussis (Td/Tdap)

Students must provide proof of vaccination for tetanus, diphtheria and pertussis within the past 10 years. If no
documentation is presented, vaccination is required. Evidence of one- time Pertussis vaccination is required. A one-
time dose of Tdap is required for all students who have not received Tdap previously. A Td booster should be
documented every 10 years thereafter. Students are required to provide documentation to the College and maintain
compliance with the immunization and health clearance policy.

Seasonal Influenza

Students must provide documented evidence that one dose of influenza vaccine is received annually. Students are
required to provide required documentation to the College and maintain compliance with the immunization and
health clearance policy.

Tuberculosis/Tuberculin Skin Test (TST)

Students are not permitted to practice in any clinical, laboratory, or classroom activities with active or suspected
tuberculosis disease. All students are required to undergo initial and annual tuberculosis screening while enrolled in
the nursing program. For students with no history of previous annual tuberculin skin testing (TST), an initial two-step
is required. For those students with previous annual and/or current TST (within the past 364 days) who provide
evidence by documentation, only a current one-step TST is required. A current one-step TST is valid and may be
accepted by the College only if completed within the past 90 days and can be verified through an appropriately credentialed healthcare provider.

Initial Two-Step TB Skin Test:
- Step #1 TB skin test administered and read within 48-72 hours.
- Step #2 TB skin test is administered 7 to 21 days after the 1st test and it is read within 48-72 hours.
- Annual TST.

One-Step TB Skin Test (for students with evidence of previous screening within the past 364 days):
- Step #1 TB skin test administered and read within 48-72 hours.
- Annual TST.

Annual tuberculosis screening and TST is required each year the student is enrolled in the nursing program. Students must provide documented evidence of compliance to the College. The annual tuberculosis screening will include a questionnaire and tuberculin skin test.

For students with a history of a positive TST, they must complete a questionnaire, have a post treatment or symptom negative chest x-ray free of active pulmonary disease, and be currently free of any symptoms. An annual tuberculin skin testing is not required for previous TB positive students. A repeat or annual chest x-ray is not required unless the questionnaire or symptoms suggests further evaluation. A negative chest x-ray result must be no older than 2 years for health clearance and must document "no evidence of active pulmonary disease" by an appropriately credentialed healthcare provider.

If an annual TST is read as a new positive, documentation of a negative chest x-ray report documenting "no evidence of active pulmonary disease" must be provided. The student will not be permitted to participate in clinical experiences until this requirement is satisfied and health clearance has been provided by an appropriately credentialed healthcare provider in the management of pulmonary and/or tuberculosis disease.

Students with a history of vaccination of Bacilli Calmette-Guerin (BCG) must complete required initial and annual screening and TST testing. In the event of a positive TST for those who received BCG, students are required to provide documented evidence of a negative chest x-ray reporting "no evidence of active pulmonary disease." Students with a history of BCG vaccination are not exempt from annual TB screening. A negative QuantiFERON-TB Gold test (QFT-G) or other Food and Drug Administration (FDA) approved TB blood test may be accepted in the place of a TST or chest x-ray. Both results must be within the past 90 days prior the first week of the quarter in which the student initially enrolls in the nursing program. Students who demonstrate a positive TST, QuantiFERON-TB Gold test (QFT-G) or other Food and Drug Administration (FDA) approved TST, or positive pulmonary disease on a chest x-ray, will not be permitted to participate in clinical experiences until cleared from an appropriately credentialed healthcare provider in the management of pulmonary and/or tuberculosis disease.

7. Additional Immunizations

Immunization/vaccination requirements are based on the current Centers for Disease Control (CDC) recommendations for healthcare workers and the Advisory Committee on Immunization Practices (ACIP). Contracted clinical agencies where students will be assigned may have additional health clearance and immunization requirements beyond the current recommendations by the CDC or ACIP. The School has identified a standard immunization policy but reserves the right to require any additional healthcare clearance assessment, documentation, immunization, and serology testing at any point throughout the enrollment of the nursing program. In addition, immunizations and health requirements may change without notice and students may be required to provide verifiable documentation of their ability to meet new requirements. Students are required to provide documentation within the designated timeframe to maintain enrollment and progress. All additional requirements are at the student's expense.

8. Student Health Requirements

It is essential that nursing students can perform several physical and cognitive activities in the classroom, clinical and learning laboratory portions of the program. Students are not to enter any clinical facility with contagious conditions or injuries. A student must consult with the clinical instructor if an illness, medical condition, or injury is present prior to entering the clinical facility. The School or clinical agency reserves the right to request a medical release from a health care provider if an identified condition, illness, and/or injury may cause a potential safety risk to the student, patient, or
others. Additional health care clearance documentation may be required. Any additional requirements will be at the student’s expense.

Examples of medical issues include, but are not limited to: limitations required after surgery or accident, immuno-suppression, pregnancy, back injury, behavioral health, etc.

Students may not enter or practice within a clinical area under the influence of a controlled substance or any medication which may impair judgment, alertness, or physical agility regardless if prescribed by a healthcare provider. The clinical instructor and Clinical Director will be the final deciding authority as to their perception if the student may practice safely within the clinical environment. The clinical agency may be consulted as well.

NOTE: Any changes in physical or mental health must be reported immediately to the clinical instructor and Director of Nursing within 24 hours or before entering a clinical area (whichever comes first).

Students must submit the approved physical and health clearance forms to the School prior to the designated deadline. NOTE: Students with medical and/or mental health conditions which may place the student or patient safety at risk may not be eligible for admission or continuation in the nursing program. Risk assessment is at the discretion of the Director of Nursing in consultation with the School President.

Provide any additional documentation that may be required by the assigned clinical site.

**Transfer of Credit**

Transfer of credit is always the decision of the individual college or university and is controlled by the receiving institution. The request to transfer credit must be initiated by the applicant or student. Accreditation does not guarantee transfer of credits.

Requests for transfer credit should be submitted prior to enrollment, and only under extenuating circumstances may an exception be made with the approval of the Campus President/ Director of Nursing, in which case all necessary documents must be received no later than 14 calendar days after the start date of the student’s program.

To apply for consideration of credits previously earned, students must request official transcripts be sent directly to the School to the attention of the Registrar. Students may be required to provide a relevant catalog and/or other relevant documents regarding the course(s) to be considered. Foreign transcripts must be translated into English and be evaluated by a member agency of the National Association of Credential Evaluation Services (NACES).

In order to be considered, the institution where the credit was previously earned must be accredited by an agency recognized by the United States Department of Education or the Council for Higher Education Accreditation (CHEA).

Courses for which applicants would like to request transfer credit must meet the applicable criteria listed below:

- Courses in general must have been completed within the previous five years (60 months). Individuals holding an earned associate or higher degree are exempt from the time limit in this paragraph, except as noted below.

- Anatomy & Physiology I and II courses in Nursing program must have a grade of "B" or higher on the transcript from the awarding institution and earned within the last five years (60 months).

- Credit may be awarded for Anatomy & Physiology I and/or II with grade of "C" or that was earned after five years (60 months) by passing an Anatomy & Physiology standardized exam with a score of 78 or higher to receive credit. Applicants will be granted one attempt only to achieve a passing score at his/her own expense. Exam fee is $75.

- All other courses must have a grade of “C” or higher on the transcript from the awarding institution.

Learning objectives or competencies of courses submitted for transfer credit must be comparable to the courses at the FVI School of Nursing for transfer credit to be awarded.
NOTE: The School does not award credit for life or work experience. Only general education courses may be transferred. Nursing courses completed at another post-secondary institution are not eligible for transfer credit (i.e. courses with a “NUR” or “PNR” prefix).

Students will be informed in writing regarding the acceptance or rejection of transfer credit after evaluation of all materials provided. Grades associated with transfer credits are not calculated in the student’s Grade Point Average (GPA) and will appear on the student’s transcript with a grade of “TR.” Transfer credits are included in the calculation of the credits earned/credits attempted ratio for purposes of determining rate of progress in satisfactory academic progress. Since the number of credits transferred into a program may shorten the maximum program length for completion of graduation requirements, students should consult the Financial Aid Department about the effect of the change in program length on their eligibility for grants and loans under federal Title IV rules and regulations. Transfer credits will also impact the maximum allowable timeframe in which a student must complete a program.

Financial Arrangements

The student must make financial arrangements with the Financial Aid Office regarding the FAFSA application, Scholarships and/or a Cash payment plan prior to enrolling. This institution is eligible to participate in various Title IV financial aid programs. These programs are available to those who qualify.

Prior to admission, the prospective student is given a career profile form, an interview with an admissions representative, and a tour of the school facilities. The interview will elaborate on school and program requirements, career opportunities, the physical demands of the job, and the any applicable State Board requirements.

Distance Education Policy:

A number of the school’s programs have hybrid components that are offered in conjunction with Campus based delivery while programs or portions of programs may also be offered 100% through Distance Education. During emergencies that necessitate closing the physical campus, the school may elect to continue delivering courses via Distance Education to keep students actively enrolled and progressing through his/her program.

Online Orientation and Technical Requirements

Students enrolled in online live or hybrid programs must have access to a working computer or laptop and have internet access. If you have a tablet or a smart phone, it is important that you realize NOT all classroom functions are accessible on a tablet, smart phone or another mobile device.

Most programs offered by FVI is taught through a combination of online live, hybrid or on campus residential attendance. Most programs contain an externship or clinical which is conducted at an approved healthcare facility.

FVI programs utilize an instructor-led online live or synchronous learning environment. Classes offered via a hybrid delivery will require students to attend class at least one day per week at the assigned campus. There are some programs that may also be offered via 100% face to face delivery where students are required to physically attend all classes at the campus where he/she enrolled. All courses regardless of delivery method will require the use of a laptop or computer.

The new student orientation provides an overview of the online learning environment. The syllabus for each course is available in the FVI Learning Management System and delineates student learning objectives.

Students who are financing a laptop purchase through the school should receive a laptop during the first week of the program start. If a student chooses to purchase one on their own he/she will need to ensure that his/her own equipment meets the following minimum hardware and software requirements to participate in his/her program.

In addition to meeting foregoing admissions requirements, prospective students for an online or an online hybrid program must:

- Have reliable Internet access
- Meet the technical requirements indicated below
- Participate in orientation prior to the start of the program which includes:
  - A browser check to ensure compliance with technical computer requirements
  - An introduction to online learning and FVI resources and support teams
An overview of FVI's Learning Management System, i.e. Canvas
Information regarding policies, navigating the online course and resources to aid in the learning process

To ensure student’s online learning experience is satisfying, FVI School of Nursing/School of Technology requires the following minimum hardware, operating system, software and Internet specifications:

Hardware:

- Windows computer with a 2.0 GHz frequency CPU speed or above
- MAC computer (Intel Processor) with a 2.0 GHz frequency CPU speed or above
  - Intel Core 2 Duo CPU
- 4 GB Memory (RAM) or above
- 64 GB of free hard drive space
- 1366 x 768 or higher computer screen resolution
- Ethernet connection (LAN) or wireless adapter (Wi-Fi)
- Integrated video and sound card
- Internal or External webcam and microphone
- Speakers

*Chromebooks and mobile devices such as tables and smart phones are NOT fully compatible with all features within the online course or learning resources.

Operating Systems (OS):

- Windows 10
- Mac OS X: 10.12 (Sierra), 10.13 (High Sierra), or 10.14 Mojave), 10.15 (Catalina) or newer

Internet Browser

Both Windows and Mac Computers:

- Mozilla Firefox 68 and 69 (stable channel) at mozilla.org
- Google Chrome 76 and 77 (stable channel) at google.com/chrome
  - Latest versions are not compatible with Flash Player

Mac Computers:

- Safari Versions 12 and 13

Internet Service Providers

- A reliable high-speed internet connection is required (upload and download speeds of at least 5Mbps)

Browser Configurations

- Disable Pop-up Blockers
  - Enable Cookies in Browser
  - Enable JavaScript

Supporting Devices and Operating Systems:

Online and Hybrid Students must have access to a working computer or laptop and have internet access. If you have a tablet or smart phone, it’s important that you realize not all classroom functions are accessible on a tablet, smart phone or another mobile device.
ACADEMIC INFORMATION

Credit for Prior Education
Florida Vocational Institute (FVI) reserves the right to accept or deny transferring credit hours received from another school. The granting of credit for prior education or exams cannot exceed forty percent (40%) of any program. Programs and tuition will be adjusted per the number of credit hours accepted by Florida Vocational Institute (FVI) or FVI School of Nursing.

Transfer Students
All transfer credits will be counted as credits attempted and credits completed.

Students who transfer out of Florida Vocational Institute (FVI) may receive a transcript reflecting clock or credit hours and grades if all financial obligations have been met by the student. Please note that transferability of credits is the decision of the receiving institution.

DISCLAIMER: Florida Vocational Institute (FVI) is a post-secondary career school designed to teach students the skills needed for obtaining or enhancing employment. Credits earned at Florida Vocational Institute (FVI) may not be transferable to any other post-secondary institution. The eligibility of transfer of credits is awarded at the discretion of each receiving institution. Florida Vocational Institute (FVI) does not guarantee any credits will transfer to any other institution.

Definition of Clock Hour
A clock hour consists of 50 minutes of instructional time in a 60-minute block of time.

Clock to Credit Hour Formula
A credit hour is equivalent to a minimum of each of the following: one semester credit hour for 15 contact hours of theory, 30 contact hours of laboratory activities, or 45 contact hours of work-based activities. In addition, there are assigned out of class/ preparation hours for a credit hour course.

Class Schedule and Class Size
Florida Vocational Institute (FVI) has open registration for all programs. Class schedules will be given to students on the first day of classes. Classes may be scheduled Monday through Friday: Day sessions are from 8:30 am to 1:30 pm and Evening sessions are from 5:30 pm to 10:30 pm Class schedules vary by program.

Course/Drop Add Period
A non-degree student may not drop or add a course, except in certain circumstances after the third day of the class/term start. A nursing student may not drop or add a course, except in certain circumstances after the first week of the semester start date.

SATISFACTORY PROGRESS & PROBATION POLICY

Federal regulations require all schools participating in state and federal financial aid, Title IV, HEA programs to monitor Satisfactory Academic Progress (SAP). These standards are applicable to all students attending this institution.

A student’s record is reviewed periodically to determine whether the student is making satisfactory progress academically and attending classes to complete the course within the specified timeframe in accordance with this policy. The maximum timeframe a student may take to complete a program of study is one and one-half times the length of the program, e.g. program length = 36 weeks, maximum time frame = 54 weeks. If the student is unable to complete the program in this time, the student will no longer be eligible for financial aid. To be eligible for Title IV aid, a student must maintain satisfactory academic progress (SAP) as per section 668.16(e) of HEA 1965.

All students must maintain Satisfactory Progress to continue enrollment. Satisfactory Progress is measured at the end of each evaluation period and will be checked prior to disbursement of aid. Generally, incomplete courses, repetitions, and non-credit remedial courses do not apply and will have no effect on satisfactory progress.
Same as or Stricter Than

The school’s SAP policy for Title IV students is the same as the school’s standards for students enrolled in the same educational programs who are not receiving Title IV, HEA funding.

The Financial Aid Administrator reviews the Title IV, HEA SAP policy to ensure it meets all federal requirements.

Maximum Timeframe

The maximum time (which does not exceed 150% of the program length) allowed for students to complete each program at satisfactory progress is stated below:

<table>
<thead>
<tr>
<th>Associate Degree</th>
<th>Normal Timeframe</th>
<th>Maximum Program Timeframe</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

Evaluation Periods

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. Students who are not making SAP will be notified in writing the evaluation results. Failure to make SAP will impact eligibility for Title IV, HEA financial aid.

Formal evaluation periods for Satisfactory Academic Progress for clock hour programs are based on the actual contracted hours at the school and ½ of the instructional weeks for the program.

<table>

Qualitative Measure of Satisfactory Academic Progress (SAP)

The school measures qualitative progress based on a 4.0 scale. All courses for which the students receive a grade will be included when calculating the student’s Cumulative Grade Point Average (CGPA), except that of a Withdrawal (W) or an Incomplete (I) will not be included in determining a student’s CGPA. If a student repeats a course, only the highest grade for that course will be included when calculating the student’s GPA. Students must make up failed or missed tests and incomplete assignments within ten (10) calendar days or receive a failing grade. The student must maintain a minimum cumulative GPA of 1.75 to meet SAP for the first evaluation period and a minimum 2.0 cumulative GPA for each subsequent period.

The school’s satisfactory academic progress policies must contain a quantitative measure. The policy defines the pace that students must progress to ensure educational program completion within the maximum timeframe of 150%. The maximum time frame is no longer than 150% of the published length of the educational program.

Quantitative Requirement

Students are required to complete his/her educational program in no longer than 150% of the published length of the program. This timeframe is applicable for all students including those who did not receive financial aid.

At the midpoint of the maximum timeframe, students must have successfully completed 1/2 of the program’s credit hour requirements.

For example: The maximum timeframe for the Medical Assistant program is 54 weeks. The total credit hours for completion of this program is 32. By the time the student has been in the program for 27 weeks (1/2 of the maximum time frame), they must have completed 16 semester credits.

The students who have failed to meet the quantitative and qualitative standards are placed on Financial Aid Warning.

Financial Aid Warning and Academic Probation

Students who do not meet the qualitative and quantitative academic progress for a designated period will be placed on Financial Aid Warning and given one designated period to meet the minimum academic standard. Students who do not meet that standard will be placed on academic probation and will lose all Title IV student funding. Students who achieve sufficient academic progress at the end of a designated academic period, will regain Title IV eligibility.

Note: Students on academic probation will have to pay all costs of attendance for the period during which they are on academic probation.

Students who do not achieve sufficient academic progress at the end of the academic probation period will be withdrawn from the program.

Students must have completed all required credits or clock hours with a minimum of a 2.0 cumulative grade point average to graduate.

Student Appeal Procedures

The student has seven (7) business days to submit an appeal regarding failure to meet SAP. The appeal must be given to the Director of Education or the School President, either of whom will meet with members of an Appeal Committee to decide on the appeal.

The student must provide supporting documents and describe any mitigating circumstance(s) that deserve special consideration. The basis by which a student may file an appeal: death of a relative, injury, illness of the student or other special circumstance.

Once the school receives the appeal, and it is evaluated, a written and final decision will be provided to the student within ten (10) business days.

The student will be notified of the School Presidents decision within ten (10) business days following the receipt of the student’s appeal letter, additional time may be taken to thoroughly review student’s appeal.
**Grading System**

Students are graded per the following Grade Point Average (GPA) system:

- Evaluations will be accomplished by a final course grade for every course in a program. Letter grades "A", "B", "C", and "F" will be used.

- Plusses and minuses may be assigned to grades of "B" or "C".

- Minuses may be assigned to an "A" grade.

- A minimum passing grade is a “C” for all courses except for the science and nursing core within the Nursing program where a passing grade is a “C+”.

- Temporary grade (IN) is treated as an “F” (zero quality points) until it is removed.

- Grades with a P and W are ignored with calculating average quality score.

<table>
<thead>
<tr>

</tbody>
</table>

Other letter grades used by the School include

- I: Incomplete
- W: Withdrawn
- WF: Withdrawn Failing
- TR: Transfer Credit

**Attendance**

Regular attendance is expected of all students. Attendance is taken daily in class by the instructor and submitted to the Registrar before the end of each class day. Students are expected to attend all scheduled classes and to arrive on time. Attendance records will be maintained by the Registrar and will be part of the student’s permanent academic record.

Attendance is reviewed by the instructors, program directors and the Director of Education on a weekly basis. Students will be notified by phone, text or e-mail if their attendance is in danger of violating attendance requirements.

**Nursing Program:** Students should refer to the Nursing Student Handbook regarding additional attendance policies regarding clinical, simulation and lab.

Students may appeal the school’s actions related to the attendance policy if the absence was due to extenuating or mitigating circumstances. For example, illness, military duty, death of a family member, court appearances or jury duty.
Appeals must be received within seven (7) business days of the student being notified of the decision that he or she wishes to appeal.

**Absences**

Students with excessive absences will be subject to disciplinary action, including termination from classes. Students with chronic absences may receive a failing grade for the course. A student will be withdrawn from any course or program if he/she does not attend within a **fourteen (14) consecutive calendar day period** (excluding school holidays or breaks that are longer than five consecutive days). All students must complete 100% of all externship/clinical hours within the assigned grading period.

Students are responsible for making up assignments and work missed because of absence at the discretion of the instructor.

**Tardiness/Leaving Early**

A student is considered late if he/she arrives 15 minutes after the scheduled class start time. The instructor will advise the student concerning excessive tardiness or leaving early.

**Make-Up Work**

Arrangements to make-up assignments, projects, tests, and homework missed because of absences must be made with the approval of the instructor.

**Course Repeat Policy**

If a student repeats a course, only the highest grade will be counted, and previous grades will be deleted.

A student may only repeat a previously failed course **one time**. A student who fails the same course twice must be withdrawn from the program/school.

All failed courses must be repeated and successfully completed in compliance with course and program requirements.

All courses from which a student has withdrawn must be repeated and successfully completed.

Failing or withdrawing from a course and subsequent required courses may interrupt the student’s enrollment, delay the student’s expected graduation date, negatively impact financial aid eligibility and/or impact the student’s satisfactory academic progress.

Students who need to repeat a course must meet with the Registrar regarding scheduling. A student who fails a course must repeat that course at the next available opportunity, subject to space limitations.

**Nursing Program:** Students who fail a general education course may repeat a course **only one** time. Failure of the same course, or failure of any three general education courses shall result in the student being dismissed from the Associate of Science in Nursing program. Failure of any two nursing courses shall result in a student being dismissed from the Associate of Science in Nursing program.

Nursing students who withdraw from a general education or core nursing course or from the school will receive a grade of “W” if they withdraw before the end of the 9th week. If nursing students withdraw in week 10 (tenth), the student will receive a “WF” grade for the course. The grade will be recorded on their transcript. A “WF” grade is regarded the same as an “F” grade in determining whether the nursing student can remain enrolled in the program.

Nursing students are allowed only two course withdrawals (including both “W” and “WF”) from core nursing courses and/or required science courses during the entire nursing program, whether such withdrawals were from the same course or different ones. Withdrawing a third time, regardless of the week in which the withdrawal takes place, will result in academic dismissal from the nursing program.
**Academic Appeals**

The Academic Appeals policy and process provides a vehicle for by which students may appeal academic decision or actions such as a final grade or consequences of attendance violations. Students who wish to appeal an academic status or eligibility should see the SAP Appeals & Financial Aid Probation section of the Satisfactory Academic Progress policy. Students considering appealing a decision related to classroom policies, such as testing in a course, course assignments, or grades should first discuss their concerns with their instructor.

Appeals must be received within **seven (7) business days** of the student being notified of the decision or grade that he or she wishes to appeal. Academic Appeals must be submitted in writing to the Director of Education. The appeal must include a description of the academic decision the student is requesting to be reviewed and as much documentation as possible substantiating the reason for a review of the decision.

The Director of Education will convene a meeting of an Academic Appeal Committee. This meeting will be held within **ten (10) business days** of receiving the student’s appeal. The student will be notified in writing via mail or e-mail of the Academic Appeal Committee’s decision by the end of the next business day after the Committee meeting. If the student believes that he or she did not receive the appropriate due process, then he or she may file a grievance or complaint by following the Grievance/ Complaint Procedures section of this catalog.

**Leave of Absence**

A student may be granted one (1) leave of absence (LOA) during the program of study. LOAs may not extend beyond one academic term. A Leave of Absence (LOA) request with documentation must be approved by the Director of Education and/or Director of Nursing.

A nursing student may be granted one (1) leave of absence (LOA) prior to the start of an academic term and only one (1) may granted during his/her program of study.

If a LOA is approved, and the student’s enrollment is temporarily interrupted the student will return to school in the same status held prior to the leave of absence.

If a student does not return when scheduled, he or she will be terminated. The last day of actual attendance will be used for refund purposes.

**Standard Period of Non-Enrollment**

A student may be placed on a standard period of non-enrollment (SPN) for a period of no longer than one academic term. A standard period of non-enrollment may be required when a student must repeat a course that is not being offered during the current term. Not all courses are offered every term. The school reserves the right to reschedule a course for the next academic term if there are fewer than **five (5)** students registered for the course.

If a student does not return when scheduled, he or she will be terminated. The last day of actual attendance will be used for refund purposes.

**Records**

Student records are permanently kept by the school on file, safe from fire and other perils. These records are available to the student upon written request.

**Progress Report**

At the end of each academic term, the school will provide a progress report.

**Dismissal/Withdrawal**

Students are eligible to re-apply for enrollment at Florida Vocational Institute (FVI) after dismissal. This request will be on a petition basis. For re-enrollment to be approved, the petition must present evidence of some change in the student’s circumstance.
"Official" Voluntary Withdrawal

A student is “Officially” withdrawn on the date the student notifies the Registrar or School President in writing of their intent to withdraw.

Unofficial Withdrawal

Any student that does not provide official notification of his or her intent to withdraw and is absent for more than a fourteen (14) consecutive calendar day period, fails to maintain satisfactory academic progress, fails to comply with the school’s attendance and/or conduct policy, does not meet financial obligations to the school, or violates conditions mentioned in the School contractual agreement, will be subject to termination and considered to have unofficially withdrawn.

Re-instatement

Students are eligible to re-apply for enrollment at Florida Vocational Institute (FVI) after dismissal. This request will be on a petition basis. For re-enrollment to be approved, the petition must present evidence of some change in the student’s circumstance.

Students are eligible to re-enroll one time to complete their program.

Incomplete Grade

When a student is unable to complete the requirements of a course by the end of the course, the student may be given an “Incomplete” or “I” grade. The instructor will grant a grade of “I” if the student has valid reasons for not being able to finish the work. Students have 10 calendar days from the end of the course to complete the coursework. If the coursework is not completed by the determined date, a failing grade for the courses will be assigned.

Course Incompletes, Repetitions and Non –Credit Remedial Courses

Course incompletes, repetitions and non-credit remedial courses do not apply to this institution’s form of instruction. The school does not issue incompletes and does not offer non-credit remedial courses. All hours attended are considered attempted. It is not possible for students to withdraw from individual subjects. Students withdrawing from school will receive credit for all work successfully completed up to the point of withdrawal. Transfer clock/credit hours received will not be included in the calculation of the student's GPA; however, these Hours; credits will be counted toward the quantitative requirements.

Program Changes/Cancellation

The school reserves the right, at its discretion, to change, to cancel or to modify course content, materials, text, schedules, and is not responsible for loss or damage from any cause. Changes will be made prior to the start of a course. Current students will not be affected by any program change or cancellation.

Program and/or course changes and cancellation are only made after obtaining the necessary approval from the Commission for Independent Education (CIE) and Council on Occupational Education (COE).

Recognition Awards

President’s List: Students achieving 4.0 for a semester will be placed on the Presidents’ List for the semester or academic term.

Dean’s List: To qualify for this achievement award, students must maintain a 3.5 grade point average throughout their studies up to the time of graduation.

Perfect Attendance: To qualify for this achievement award, students must have perfect attendance during their course of study.
Certificate of Appreciation or Recognition Award: Students who volunteer to work on special school projects will be awarded a Certificate of Appreciation/Recognition Award.

Graduation Requirements

The student must comply with the following requirements to receive a diploma.

1. Meet all financial obligations incurred with the institution.
2. Successfully complete the total number of credits or courses required by the student’s program within the required time frame and have an overall GPA of 2.0 (C) or better.
3. Nursing students should refer to specific program requirements.

Transcripts

A complete transcript of each student’s grades is kept in a permanent file. Students must request transcripts in writing. One copy is provided free; additional copies cost $5.00 each. Transcripts will not be issued unless the student financial obligations to the school are current at the time of the request.

Veteran’s Attendance Policy

Students are expected to attend all scheduled class meetings and to arrive on time. Early departures, class cuts, tardiness, etc., for any portion of a class period will be counted as one absence. Students exceeding 20% absences in a course will be terminated from their VA educational benefits for unsatisfactory attendance.

A student may be recertified for VA educational benefits once the student has completed a subsequent class with satisfactory attendance. The student who elects to attend a subsequent class, without VA educational benefits, will be responsible for paying all charges associated with that class. The student’s attendance record will be retained in the veteran’s file for USDVA and FDVA SAA monitoring purposes. Attendance is monitored, and the attendance policy is enforced.

Standards of Academic Progress for VA Students

Students receiving VA education benefits must maintain a minimum cumulative grade point average (CGPA) of 2.0 for each course (Certification Period). A VA student that fall below a 2.0 CGPA at the end of a course (Certification Period) will be placed on academic probation for a maximum of two consecutive certification periods (two courses). If the VA student fails to achieve a 2.0 CGPA at the end of the probation period (two courses/two certification periods) the student’s VA educational benefits will be terminated. The student may continue to attend the institution without VA educational benefits and establish satisfactory progress under the school’s satisfactory progress policy which is measured at the end of each academic term. (See the school’s Satisfactory Academic Policy published in the school’s catalog at fvi.edu.

Standards of Academic Progress for VA Students

Students receiving VA educational benefits must maintain a minimum cumulative grade point average (CGPA) of 2.0 each payment period.

A VA student whose GPA falls below 2.0 at the end of any payment period will be placed on academic probation for a maximum of two consecutive terms of enrollment. If the VA student’s CGPA is still below 2.0 at the end of the second consecutive term of probation, the student’s VA educational benefits will be terminated.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the school to be recertified after attaining a CGPA of 2.0.

Veteran’s Credit for Previous Education or Training

Students must report all education and training. The school maintains a written record that clearly indicates that appropriate previous education and training has been evaluated and granted credit, if appropriate, with the training time shortened, the tuition reduced proportionately, and the VA and the veteran so notified.
STUDENT SERVICES

Advising Services

Advising and guidance begins with the admissions interview and continues throughout the student’s course of study. Since Florida Vocational Institute (FVI) is a small school, faculty advising is limited to academic counseling. All personal issues should be referred to the appropriate outside agency.

Financial Advising Services

The Business Office will inform students of all options regarding private funding or payment plans. Furthermore, Financial Aid is available for those who qualify. Students may be eligible to receive Federal Pell Grant funds as well as Subsidized and Unsubsidized Federal student loans depending on the program the student is enrolled. For more information on how to apply for Financial Aid see catalog section, Financial Information, or contact our Financial Aid Office.

Career Services

Career Services continuously promotes professional relationships with employers to provide qualified career-oriented graduates to match their employment needs. The Career Services Department is the liaison between students and employers. Through career development, including professionalism, motivation, and the maintenance of ethical standards, graduates are empowered with the skills necessary to foster a successful and on-going career.

All current and prospective students are entitled to review the institution’s completion rate and job placement rate. Statistics pertaining to these are updated and published annually on the institution’s website under the Consumer Disclosure section. Copies are available from the Admissions or the Registrar’s office.

The Career Services staff assists graduates in finding employment through resume preparation, helping with development of interviewing skills, and identifying job leads appropriate for the graduates.

Graduate candidates meet with the Director of Career Services or a member of the Career Services staff during their last term to discuss services available in their individual job search. Obtaining employment is ultimately the graduate’s responsibility.

To comply with reporting requirements, the institution reserves the right to contact a graduate's employer using various methods to verify information regarding the graduate’s employment. In some instances, the institution may disclose personal information to the employer for the sole purpose of employment verification.

Employment Guarantee Disclaimer: Florida Vocational Institute (FVI) will assist students in obtaining suitable employment at no additional charge. It is understood that Florida Vocational Institute (FVI) cannot promise or guarantee job placement or a specific salary for its students or graduates.

Completing a program in a language other than English may reduce employability where English is required.

Certifications are not required for graduation; however, students are strongly encouraged to earn certifications to enhance employment marketability. Nursing program graduates will be required to pass the NCLEX exam in order to secure employment as a nurse. Students should visit the Program Director for more information and the steps needed to register for these certification exams.

Tutoring Services

Students should understand that tutoring is not a substitute for regular class attendance. Should students have difficulty understanding material with their program content then the Program Director may schedule tutoring or extra lab time with an instructor. These sessions will be scheduled outside the normal class schedule and arrangements should be made with the instructor or Program Director.

Housing

Florida Vocational Institute (FVI) does not offer housing to its students.
Lost and Found Services

Florida Vocational Institute (FVI) assumes no responsibilities for articles lost by student. Students may check the Business Office for any lost and found item. Any items found on school premises should be turned into the office. These items are kept for 30 days. After 30 days the school will dispose of any unclaimed items.

Personal Property

Florida Vocational Institute (FVI) cannot be responsible for the student’s books, materials or any personal belongings.

Learning/Media Resource Area

Florida Vocational Institute (FVI) has a Learning/Media Resource area (Library). During new student orientation, students will be informed of the hours of operation; sign-in/out procedures: print material available, and non-print material available and other policies. The center is opened to students, faculty, and staff during school hours.

Class Registration/Deadlines

Class registration is held on a continuous basis. However, the student must attend class no later the third day of the scheduled courses. For more information concerning program start dates or start of classes, please see the Start Date Calendar on the last page of school catalog or contact the Registrar’s office.

Transportation

Public transportation is available to the campus facility. Students may contact the office for bus schedules and routes. Florida Vocational Institute (FVI) campuses have ample parking available.

Emergency Contacts

Florida Vocational Institute (FVI) is not legally or financially responsible for medical care and does not provide the services of a physician. The Fire Department Rescue Service provides first aid emergency health service. At the time of enrollment, each student should provide the name of the individual to contact in an emergency on the appropriate line of the application form. Students should carry emergency information always, as well as any medical insurance card(s).

Crime Statistics Report

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act and the code of Federal Regulations require all institutions to gather school crime statistics and make the report available to students, faculty and employees. Any criminal activity by students, faculty and employees will not be tolerated and will be cause for immediate dismissal. A crime statistics report is available by October 1 of every year. All employees and students will receive annually a copy of the Crime Statistics Report, and an acknowledgement is kept in the employee personnel file and student’s academic file. Also, a detailed report from the Miami-Dade and/or City of Miramar Police Departments will be given to every student obtained upon request.
SCHOOL RULES AND REGULATIONS

Drug and Alcohol Policy

Law regarding the possession, sale, consumption or furnishing of alcohol is controlled by the State of Florida, Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco. Florida Vocational Institute (FVI) has a substances abuse policy that is inclusive of alcoholic beverages. Florida Vocational Institute (FVI) adheres to the Drug Free Workplace Act of 1988 and the Drug Free Alcohol and Communities Act amendments of 1989. Substance abuse has been proven to be detrimental to an individual’s health and may jeopardize safety in the workplace. Therefore, the unauthorized use or possession, consumption, sale or distribution of any alcoholic beverage or drugs, except for those prescribed by a physician, are strictly prohibited everywhere on school grounds or during any activity sponsored by Florida Vocational Institute. Students and employees are prohibited from being under the influence of alcohol or drugs (except those prescribed by a physician and properly documented) while on school premises. This policy delineates the appropriate action to take if a staff member or student exhibits behavior consistent with alcohol or drug use in the workplace. All employees and students should also be advised that possession use, manufacture or distribution of a controlled substance or inappropriate use or abuse of alcohol, may carry its own penalties under local, state and federal. Violation of this policy constitutes grounds for dismissal.

Florida Vocational Institute (FVI) is a drug-free workplace for staff, faculty and students.

Weapons Policy

Use and/or possession of guns, knives or any other kind of weapon are not permitted on the premises of Florida Vocational Institute. Violation of this policy constitutes grounds for dismissal.

Sexual Harassment Policy

In compliance with the Violence against Women Reauthorization Act of 2013 (VAWA) (Pub. Law 113-4), Florida Vocational Institute (FVI) has enacted a policy prohibiting sexual harassment, including sexual violence, sexual discrimination, domestic violence, stalking and sexual exploitation; to establish a complaint procedure to investigate allegations of sexual harassment; and to provide appropriate sanctions for violators of this policy. Any action of retaliation against or interference with a witness, investigator or person who reports an alleged violation of this policy is strictly prohibited and will be subject to disciplinary action.

In the event of an alleged sexual offense, a disciplinary proceeding will be held where both the accuser and the accused will be entitled to have witnesses present. They will be informed of the final determination with respect to the alleged sexual offense and any sanction that is imposed against the accused. If it is determined that the accused is guilty of rape, acquaintance rape, or another forcible or non-forcible sex offense, the accused will be immediately dismissed.

Title IX Coordinator

Title IX protects students, employees, applicants for admissions and employment, and other persons from all forms of sex discrimination, including discrimination based on gender identity or failure to conform to stereotypical notions of masculinity or femininity. All students at Florida Vocational Institute (FVI) are protected by Title IX — regardless of their sex, sexual orientation, gender identity, part- or full-time status, disability, race or national origin in all aspects of a recipients’ educational programs.

Title IX Coordinator Contact Information:

Denyse Antunes
Florida Vocational Institute (FVI)
(Main) 7757 West Flagler Street, Suite 220
Miami, Florida 33144
(305) 665-1911 Main Number

Conduct Policy

Students enrolling in Florida Vocational Institute (FVI) assume an obligation to conduct themselves in a professional manner. Florida Vocational Institute (FVI) has the authority to exclude those who are disruptive of the educational process. **Note:** Nursing students should refer to the Nursing Student Handbook for student conduct policy requirements.

Generally, prohibited conduct for which a student is subject to disciplinary action defined as follows:

- Physical or sexual assault of any person on any Florida Vocational Institute (FVI) campus or conduct which threatens the health or safety of any such person or the physical or sexual assault of any Florida Vocational Institute (FVI) student, faculty member or employee.
- Substantial damage to Florida Vocational Institute (FVI) - owned or leased property or to property of a Florida Vocational Institute (FVI) student, employee, faculty member or visitor occurring on Florida Vocational Institute (FVI) - owned or leased property or at the residence of any student, faculty member or employee or unauthorized entry into or occupation of Florida Vocational Institute (FVI) facilities, which are locked, closed to student activities, or otherwise restricted as to use.
- Any activity that may be construed as hazing ("hazing" is defined as any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for initiation or admission into or affiliation with any organization operating under the sanction of Florida Vocational Institute.
- Use of alcohol or illicit drugs while on campus or at an externship site. Students at Florida Vocational Institute (FVI) are training for careers that involve direct interaction with patients, and individuals. Performing clinical activities under the influence of drugs or alcohol undermines patient safety and is considered a crime. Persons who engage in such actions while enrolled at Florida Vocational Institute (FVI) will be reported to the local authorities for criminal actions. Drug testing may be asked of students who display behaviors consistent with drug abuse.

Probation Policy

A student may be placed on probation for any of the following reasons:

1. Not maintaining satisfactory progress
2. Excessive absenteeism
3. Inappropriate behavior

Suspension/Dismissal/Termination Policy

A student may be suspended/dismissed or terminated from the school because of inappropriate conduct, violation of the Drug, Alcohol and Weapon policies, possession of school property without authorization, academic reasons, unsatisfactory academic progress, nonpayment of tuition, or for the good of the school. If dismissed/terminated, the portion of the refund policy in effect at the time of the dismissal/termination will apply.

A student may appeal a determination of suspension/dismissal/termination by submitting a written appeal to the Director of Education or the School President. The Director of Education or School President will review the appeal and decide on the reinstatement of the student within ten (10) business days.

Health and Safety Policy

Florida Vocational Institute (FVI) complies with requirements and regulations of state and local building codes, the Board of Health and Fire Departments.

Adverse Weather and Emergency Closing Policy

All times, emergencies such as severe weather, fire, power failures, or hurricanes can disrupt school operations. In extreme cases, these circumstances may require the closing of the school. If such an emergency occurs during non-working hours, local radio and/or television stations will be asked to broadcast notification of the closing. Information will also be posted on the school’s website. When the decision to close Florida Vocational Institute (FVI) is made AFTER the workday has begun, employees will receive official notification from the Administration and students will be informed appropriately.
Emergency Evacuation Plan Policy

In case of a medical emergency, fire or any other disaster, please listen to the administrator in charge for instructions.

- All instructors oversee their class. Follow the evacuation flow chart to evacuate the building in an organized and orderly manner.
- Do not take time to gather books or other belongings. The instructor of each class is the Evacuation Coordinator and shall keep their class calm.
- The Evacuation Coordinator for the main office is the School Official in Charge.
- Do not try to extinguish the fire.
- A School Official will handle contacting the appropriate fire and rescue departments.
- In case of a security problem, listen to the designated school official for security instructions. In all instances, you must remain calm. A school official will coordinate with the Police or Fire Department for the proper actions necessary.
- Florida Vocational Institute (FVI) has an Emergency Evacuation and Security Plan posted on bulletin boards and in conspicuous places for the view of all employees, students and visitors.

Incident/Accident Policy

In case of an incident or accident, please inform a School Administrator so the appropriate actions can be taken.

Dress Code Policy

Since the primary purpose of Florida Vocational Institute (FVI) is to train the student for employment, students are required to be neat and clean in appearance while attending classes. Students enrolled in any allied health program must wear uniforms/scrubs. Uniforms are an out-of-pocket expense and students should budget $50 for this expense. Nursing students should refer to the Nursing Student Handbook for specific dress code policies for the nursing program.

1. While on campus and in lectures, allied health students must wear a uniform and footwear appropriate for the School learning environment. The student should demonstrate appropriate hygiene to avoid offensive odor.
2. In the student laboratory, appropriate clothing must be worn for all scheduled classes. Closed-toe shoes must be worn in the lab at all times.
3. During clinical rotation, the student must adhere to the dress code of the facility to which he/she is assigned. In addition to the facility’s dress code, or if the dress code is optional, the following rules apply:
   i. Students must comply with number 2 above. If the facility requires the student to wear a scrub uniform, it must be the school’s uniform. The student is responsible for purchasing the correct scrub uniform. The student must always wear their Student ID badge.
   ii. Students must not wear clothing made of denim material of any color. (No jeans or jean skirts, etc.)
   iii. Students must not wear under-t-shirts, unless they are of one color with no words, letters, slogans, graphics, etc., of any kind
   iv. Students must wear closed-toe shoes (no sandals or canvas shoes) with socks or hosiery.
   v. While attending clinical rotations, students’ hair must be clean, neat and of a normal hair color. Male students must either shave regularly, or if they choose to wear a mustache and/or beard, they must keep it clean and well groomed.
   vi. Before attending clinical rotation, students must bathe regularly to avoid offensive odor. In addition, students must refrain from use of cologne/perfume/aftershave lotion, or makeup.
   vii. Keep fingernails clean and at a reasonable length.
   viii. At the preceptor or instructor’s discretion, students not conforming to the dress code of the facility or the program may be sent home. This may result in a recorded absence.

Smoking and Beverage Policy

Smoking is prohibited anywhere in the building. Food and beverages such as (soda, coffee, etc.) are not allowed in the laboratories.
Cell Phones

No student will be called out of class for a telephone call, except in case of an emergency. It is suggested that family and friends be informed of this rule. Phones should not be used in class for personal use. Nursing students should refer to the Nursing Student Handbook for cell phone policy governing the nursing program.

All programs are not taught at all locations. * denotes programs taught at the Miramar location - ** Denotes programs taught at both locations - *** denotes programs taught at the Miami location only at the time of the printing of this catalog.

*Test fees are set by the testing agency and are subject to change.

Students must pay the registration fee at the time of enrollment. Books and supplies, after cancellation period, are not refunded.

*Applicants may purchase their laptop from the school or from a dealer of their choice. If an applicant plans to purchase a laptop outside of the school, minimum specifications will be provided during the enrollment process.

### Other Fees

There may be an out-of-pocket expense for the following items (depending upon the program):

- Allied Health scrub/uniform set: $25 each
- Nursing scrub uniform set: $65 each
- FVI polo shirt: $25 each
- Physical: $70
- PPD: $25
- Tdap: $80
- Hepatitis B: $100
- 10-panel drug test: $50
- Influenza $30
- Prometric Nursing Assistant Competency Examination: Written - Clinical Skills English: $155
- FBI Background Screening: $91
- Window Server Administration (MTA-365) $100
- Security+ exam: $319
- Diploma/Degree Validation – Required for Foreign credentials only $70-$200
- School ID replacement: $5

Course Retake Charges

Non-nursing students will be charged the following fees for repeat courses. This includes failed or withdrawn courses.

- First course: no charge
- Second or third course:
  - Allied health: $427.77 per credit
  - Technology: $595.83 per credit

Nursing program students will be charged the following for repeat courses. This includes failed or withdrawn courses.

- Nursing (ASN) $593.75 per credit
- Practical Nursing; $451.72 per credit
- Health Services (AS): $438.00 per credit

Transcripts/Diplomas

Duplicate diploma: $25.00 fee per diploma
In-service certificates: $5.00 for each duplicate copy
Official transcripts: $5.00 for all additional copy
FINANCIAL INFORMATION

Financial Obligations

The tuition must be paid on time per the terms on the Enrollment Agreement. In case of extenuating circumstances, the student should consult the School President.

Florida Vocational Institute (FVI) maintains a staff of financial aid professionals to assist students in obtaining the financial assistance they require to meet their educational expenses. Available resources include federal grant and loan programs, student loans from private lenders.

Federal assistance programs are administered through the U.S. Department of Education. Any U.S. citizen, national, or person in the United States for other than temporary reasons who is enrolled and accepted may apply for these programs. Most forms of financial assistance are available for each July 1-June 30 award period. Every student considering an application for financial aid should request a copy of the current guide, Funding Your Education, published by the U.S. Department of Education. This important document can be obtained online at http://studentaid.ed.gov/students and will assist persons in understanding eligibility requirements.

Applying for Financial Aid

The student must complete the Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov. The student and parent or spouse, must obtain a PIN number to sign the FAFSA. The student and school will receive a response to the FAFSA (an ISIR) within a few days. The ISIR contains an Expected Family contribution (EFC) which is the amount the student and /or family are expected to pay toward the Cost of Attendance (COA) at the school (the Cost of Attendance consists of Tuitions, Fees, Room and Board, Books, Transportation and personal expenses) The Financial Aid officer will take the COA and deduct the EFC to find the student’s need. The Financial Aid Office will develop a package for the student which will list the various financial aid programs available to the student. Financial Aid will be awarded to student in two different disbursements. First disbursement will be made to the school once student completes all eligibility requirements and posts attendance. First time loan borrower will receive they first loan disbursement 30 days after class start. Second disbursement will not be scheduled until the financial aid office receives a mid-point SAP report from the registrar’s office showing that the student is progressing academically on their course of study. Half of both, hours and weeks of the program of study must be completed before student becomes eligible for second disbursement. Contact our Financial Aid Office for more information.

Florida Vocational Institute (FVI) participates in different federal financial aid programs, which include:

Federal Pell Grant

The Pell Grant is an important source of aid for students. The Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov. The amount of the award depends upon the determination of the student’s eligibility, his or her enrollment status, cost of attendance and a payment schedule issued by the U.S Department of Education, Office of Student Financial Assistance. Contact the Financial Aid Office for more information.

A student must be enrolled in an undergraduate course of study to receive a Pell Grant. A student who has earned a baccalaureate degree is not considered an undergraduate and cannot receive a Pell Grant. This need based federal aid program amount changes per award year (July 1st through June 30th of the following year). The Pell Grant program is limited to 12 semesters for the lifetime of a student or 600% of Pell award. Please refer to the Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov or contact the school’s Financial Aid Office to apply.

Federal Direct Loan Program (FDLP)

The Federal Direct Loan Program (FDLP) has both subsidized and unsubsidized loans. A subsidized loan is awarded based on financial need (need is budgeted Cost of Attendance less estimated financial aid). The Federal Government pays interest on the Direct subsidized loan until repayment begins and during authorized periods of deferment.

An unsubsidized loan is not awarded based on need. The borrower is charged interest from the time the loan is disbursed until it is paid in full. In addition, until repayment begins and during authorized periods of deferment, the unsubsidized loan

35
borrower has the option to pay interest or allow the interest to accumulate. Accumulated interest will be added to the principal amount of the loan and will increase the amount the borrower must repay. To apply the student must contact the School’s Financial Aid Office.

**Federal Direct Parent Loan for Undergraduate Students (PLUS) Loan**

Federal Direct Parent Loan for Undergraduate Student (PLUS) Loan are for parents with good credit histories who want to borrow to help for their undergraduate student’s education. Loans are made available to the parents of a dependent undergraduate by the U.S. Department of Education. For additional information students, should contact’s the School’s Financial Aid Office.

**Counseling**

Students borrowing for the first time are required to complete the Entrance Counseling provided by the Department of education at [www.studentloans.gov](http://www.studentloans.gov). If a student has previous loans from attending another institution and does not show a completed Entrance Counseling, he/she will be required to complete a new one. This is a great information source that helps and promotes good post-graduation loan management and general information that borrowers should know about Federal Direct Loans.

When students complete their program of study, they **must** visit the Financial Aid Office for an exit interview. In this interview, the student must complete the exit counseling at the previous mentioned web site. The Financial Aid administrator will also collect updated information from the student including three personal references to provide the loan servicer within case of delinquency. This is part of Florida Vocational Institute’s default management program to help student repay their loans successfully. Official withdrawals must follow the same procedure as graduating students. For unofficial withdrawals an exit counseling publication provided to the school by FSA Pubs will be mailed to the student’s address onfile.

**Credit Balance**

When students complete their Financial Aid workshop, they will have the option to sign a credit balance statement advising the school how to handle any credit balance on the student’s account. The statement also informs the student that he/she may modify/cancel such authorization and receive a full refund of his/her credit balance within 14 days of the day the credit balanced occurred. If a student does not have a credit balance statement on file, any credit balance must be refunded to the student within 14 days from the date the credit balance occurred.

**Disbursement Notice**

All students will receive an anticipated Title IV disbursement notice showing the expected disbursement dates, amounts and source of funding. Students will also be notified herein that they may cancel or reduce any loan disbursement at any time before such disbursement is made.

**Verification**

A student’s Free Application for Federal Student Aid (FAFSA) may be selected for “verification” to verify the information on the application. Students are reminded to provide truthful and accurate information.

Student who are selected for verification will be contacted by the Financial Aid Office and given a verification worksheet that includes the specific requirements, deadlines and consequences of non-compliance. To complete the verification and remain eligible for Financial Aid, the student must submit the verification worksheet as well as the tax/income information as directed by the Financial Aid Office. For more information regarding policies and procedures for verification, please contact the Financial Aid Office.

**Veterans Benefits/Other Funding Sources**

*Selected programs of study at the School are approved by the Veterans Commission for enrollment of those eligible to receive benefits under Section 3676, Chapters 31 or 33, Title 38. The determination for TVC funds is made directly through the Veteran’s Commission. Chapter 31 and 33 veterans may attend and participate in their scheduled courses and program without penalty pending the receipt of VA payments.*
Additional funding may be obtained for eligible candidates through many different programs including: CareerSource South Florida, Division of Vocational Rehabilitation, and Private Scholarship funds. The determinations for these funds are made through the respective organizations.

Florida Vocational Institute (FVI) offers the following scholarships on a first come first serve basis. Each scholarship is budgeted annually with a limited amount of funding available each year for each scholarship.

The following policy applies to all institutional scholarship and grant programs:

**Unexpended Award Funds:**
Unexpended award funds may not be accumulated from year to year. All unexpended awards are returned to the institutional budget.

**Transfer of Awards:**
No institutional scholarships awarded by the Committee, for the benefit of FVI students, may be transferred to any other institution. No recipient may transfer his or her FVI scholarship to any other individual, and the scholarship may not be redeemed for a like cash sum.

**Loss of Awards:**
All recipients of any scholarship must maintain a C average and remain in Satisfactory Academic Progress as defined by the school’s catalog. No recipient may continue to participate in the scholarship program if they are placed on academic probation, attendance probation, or disciplinary probation. Any probation status will result in the revocation of all institutional scholarship awards that are not a part of Federal Student Aid.

Any recipients convicted of DUI, or any criminal offense, other than a summary offense, that individual shall forfeit any and all scholarship awards granted by FVI.

**Federal Student Aid:**
Scholarship applicants must apply for the Federal Student Aid programs. The amount of the scholarship award to the student may be adjusted based on the federal grant and I.T.A awards applied to the student’s educational expenses.

**General Disclaimer:**
Scholarship applicants understand that all applicants have been assumed to have provided information regarding their intention to enroll and complete the program to which this scholarship applies.

**New Horizons Scholarship** – Available to graduates of New Horizons.

**Award:**
$500 per-term tuition reduction, with a maximum value of $1,000 for either Technology program.

**Eligibility Requirements Overview:**
Must be a first-time enrollee in an IT program (Cyber Security and Network Technician Program or the Web Developer Program) at Florida Vocational Institute. Students wishing to enroll in other programs are not eligible.

1. Applicant must provide proof of successful completion from one of New Horizon Computer Learning Center’s IT programs within the last 3 calendar years.
2. Applicant must meet all admissions requirements for Florida Vocational Institute’s IT Programs, including GED or high school equivalent, satisfactory performance on any entrance or placement tests and be fully accepted into one of Florida Vocational Institute’s IT Programs.
3. Applicant must also complete and submit the Florida Vocational Institute’s New Horizon Scholarship application prior to or at the time of enrollment.
4. Students must remain full time students and maintain an average GPA of 2.0 or better.
5. Must be continuously enrolled; withdrawing from school or not starting classes in the first term will result in ineligibility.
6. Students who complete a program and are immediately (defined as the first or second start date available for re-enrollment after graduation) re-enrolling to complete another IT Program are eligible for the scholarship (any break between programs will result in ineligibility for the scholarship). Students will not lose scholarship during approved leaves of absence and must return within the approved timeframe to retain eligibility.

Other Terms and Conditions:
If the application is not provided to Florida Vocational Institute (FVI) prior to or at the time of enrollment, the student will not be eligible for the Florida Vocational Institute’s New Horizon Scholarship and will be responsible for the total cost of tuition for enrollment.

If the student meets all eligibility criteria to qualify, the scholarship will be applied after the end of the first half of the program as a credit of $500, and the balance applied upon successful completion of the program. Florida Vocational Institute’s New Horizon Scholarship has a maximum value of $1,000 per IT Program.
The scholarship cannot be used in conjunction with any other Florida Vocational Institute (FVI) tuition reductions or other scholarships.

The scholarship application must not contain any material that could be considered unlawful, harmful, threatening, abusive, harassing, defamatory, vulgar, obscene, indecent, sexually explicit, or hateful; or content that refers negatively to people or groups on the basis of their age, race, ethnicity, religion, sexual orientation, gender, national origin, handicap, disability, veteran status, or similar characteristics; or include material that is otherwise objectionable to Florida Vocational Institute.

Economic Development Scholarship

Award Procedures:

1. Applicants must be approved by Career Source South Florida to enroll in an eligible program and have a financial gap after all eligible federal grants and ITA have been applied.
2. Must meet all admissions requirements for Florida Vocational Institute’s Programs, including GED or high school equivalent, satisfactory performance on any entrance or placement tests and be fully accepted into one of Florida Vocational Institute’s Programs.
3. Must complete and submit the Florida Vocational Institute’s Mall of America Employee Scholarship application prior to or at the time of enrollment.
4. Students must remain full time students and maintain an average GPA of 2.0 or better.
5. Must be continuously enrolled; withdrawing from school or not starting classes in the first term will result in ineligibility.
6. Students who complete a program and are immediately (defined as the first or second start date available for re-enrollment after graduation) re-enrolling to complete another eligible program are eligible for the scholarship (any break between programs will result in ineligibility for the scholarship). Students will not lose scholarship during approved leaves of absence and must return within the approved timeframe to retain eligibility.
7. All awards shall be applied to offset tuition, books and other direct educational supplies at the end of each term. This scholarship will only be awarded once in a lifetime. Awards may be proportioned based on the number of terms required to complete the patient care technician program.
8. Since this scholarship is offered to Career Source sponsored applicants with completing the applicable program without any student loan debt, if a student opts to apply for federal loans then he/she will forfeit any and all scholarship awards granted by FVI.
INSTITUTION DEVELOPMENT SCHOLARSHIP

Award procedures:
Applicants who are not federal Pell grant eligible or only qualify for a partial amount due to an earned bachelor’s degree, its foreign equivalent, or who have a high EFC and have been unable to secure other private lending sources will qualify for an institutional scholarship award of up to $1,500 for a 25-credit hour program and up to $2500 for a 32-credit hour program to apply toward any gap after eligible federal direct loans have been applied.

1. Applicants must be a first-time enrollee in an eligible program at Florida Vocational Institute. Students wishing to enroll in the Nursing Assistant program are not eligible.

2. Applicants must meet all admissions requirements for Florida Vocational Institute’s programs, including GED or high school equivalent, satisfactory performance on any entrance or placement tests and be fully accepted into one of Florida Vocational Institute’s Programs.

3. Must complete and submit the Florida Vocational Institute’s Scholarship application prior to or at the time of enrollment.

4. Students must remain full time students and maintain an average GPA of 2.0 or better.

5. Must be continuously enrolled; withdrawing from school or not starting classes in the first term will result in ineligibility.

6. Students who complete a program and are immediately (defined as the first or second start date available for re-enrollment after graduation) re-enrolling to complete another eligible program are eligible for the scholarship (any break between programs will result in ineligibility for the scholarship). Students will not lose scholarship during approved leaves of absence and must return within the approved timeframe to retain eligibility.

7. All interested applicants must complete an application with a submission of a double spaced Typed 200-300-word essay on the topic: How will this career training program help me to achieve my personal and professional Goals?

8. All awards shall be applied to offset tuition, books and other direct educational supplies at the end of each term. The maximum life-time award is $2,500. Awards may be proportioned based on the number of terms required to complete the program of study.

The following policy applies to all institutional scholarship and/or grant programs:

Unexpended award funds:
The institution sets an annual budget per calendar year which limits the number of awards. Unexpended award funds may not be accumulated from year to year. All unexpended awards are returned to the institutional budget.

Transfer of Awards:
No institutional scholarships awarded by the Committee, for the benefit of FVI students, may be transferred to any other institution. No recipient may transfer his or her FVI scholarship to any other individual, and the scholarship may not be redeemed for a like cash sum.

Loss of Awards:
All recipients of any scholarship must maintain a C average and remain in Satisfactory Academic Progress as defined by the school’s catalog. No recipient may continue to participate in the scholarship program if they are placed on academic probation, attendance probation, or disciplinary probation. Any probation status will result in the revocation of all institutional scholarship awards that are not a part of Federal Student Aid.
Since this scholarship is offered to assist disadvantaged students with completing the applicable program without any student loan debt, if a student opts to apply for federal loans then he/she will forfeit any and all scholarship awards granted by FVI.

Any recipients convicted of DUI, or any criminal offense, other than a summary offense, that individual shall forfeit any and all scholarship awards granted by FVI.

Fee & Payment Schedule

The Registration fee of $100.00 is due at the time of signing the application for admissions. It is suggested the books and materials be purchased prior to attending the first class.

TUITION AND OTHER COSTS FOR PROGRAMS OF TWO TERMS OR LONGER: A student will be charged only one Term at a time. Tuition and other costs for future Terms become payable as they occur. The student budget sheet or financial aid notification is used to outline the method that will be used to pay all costs the student will incur. Tuition is charged at the beginning of each Term. If a student’s enrollment is terminated before the end of a Term, the tuition charged for the Term may require adjustment in accordance with the School’s refund policy as stated in this Enrollment Agreement. All other fees and charges are non-refundable when the applicable service or item is provided to the student. Payment for tuition and fees may be made by cash, check, and credit card and/or by federal or state financial aid sources. If the student maintains continuous enrollment in her / his program of study, and upon the request of the student and the approval of the School, the student may be approved for additional instructional time for the completion of all program requirements beyond the above stated expected graduation date. The student will be charged tuition for the additional instructional hours/credits based on same tuition rate as stated above. Students who are dismissed from the School for any reason and who wish to re-enroll, must be approved for re-admission, satisfy the current requirements for admission and sign a new enrollment agreement. The new enrollment agreement will reflect the then current tuition and fees rate for the remaining period of enrollment.

TUITION AND OTHER COSTS FOR PROGRAMS OF ONE TERM OR LESS. The total tuition and other costs are shown above. A student will be charged for the entire program and become payable on the first day of class. The student budget sheet is used to outline the method that will be used to pay all costs the student will incur. Tuition is charged on the first day of class. If a student’s enrollment is terminated before the end of the program, the tuition charged may require adjustment in accordance with the School’s refund policy as stated in this Enrollment Agreement. All other fees and charges are non-refundable when the applicable service or item is provided to the student. Payment for tuition and fees may be made by cash, check, and credit card and/or by federal or state financial aid sources. If the student maintains continuous enrollment in her / his program of study, and upon the request of the student and the approval of the School, the student may be approved for additional instructional time for the completion of all program requirements beyond the above stated expected graduation date. The student will be charged tuition for the additional instructional hours/credits based on same tuition rate as stated above. Students who are dismissed from the School for any reason and who wish to re-enroll, must be approved for re-admission, satisfy the current requirements for admission and sign a new enrollment agreement. The new enrollment agreement will reflect the then current tuition and fees rate for the remaining period of enrollment.

The student has the option of paying the tuition cost 1) in full prior to attending the first class; 2) or paying the balance of the tuition cost in installments as agreed upon with the Business Office. In addition to the Registration fee and down payment, a Student Payment Schedule will be given to the student by the Business Office and payments will be as stated in the Student Payment Schedule.

If a student’s account is sent to collection, Florida Vocational Institute (FVI) shall be entitled to collection, attorney fees and cost on the account thereof.

Students receiving Financial Aid to fund their program will be presented with an Award Letter showing all his/her awards. If any remaining balance to schedule is due now, student will be advised of different options to cover such balance.
Cancellation/Rejection Policy

Florida Vocational Institute (FVI) will refund all monies paid by an applicant who is rejected for enrollment by the School, or who enrolls in a program that the School cancels, or who cancels in writing within 72 hours (until midnight of the third day excluding Saturdays, Sundays and legal holidays) of signing the enrollment agreement.

If a student cancels after 72 hours of signing the enrollment agreement but before the first day of class, or within the initial three-day drop/add period of the program start, the student is financially responsible for the registration fee and any applicable background fee processed with the enrollment, not to exceed $100.

Refund and Cancellation Policies

If an applicant/student cancels or withdraws or is terminated by Florida Vocational Institute (FVI) for any reason, refunds will be made per Florida Vocational Institute (FVI) Refund Policy (see below).

If a refund is due the student, it will be paid within 30 days of the date that the student either officially withdraws or Florida Vocational Institute (FVI) determines that the student has withdrawn. All refunds will be based on the scheduled clock hours of class attendance through the student’s last day of class attendance. Upon receipt of the refund, the student agrees that its receipt constitutes a full and complete release of Florida Vocational Institute (FVI) from all liabilities. All governmental and agency refunds will be made within the required time limits of the funding agency.

Programs Exceeding 12 Months in Length

For programs of more than 12 months in length, students who do not enter the subsequent 12-month period, will not be charged for the subsequent 12 months. Should the student enter the subsequent 12-month period, the institutions published refund policy will apply. The student will only be charged by the term in any program in which he or she is enrolled.

Tuition Refund Policy

A student wishing to officially withdraw should inform Florida Vocational Institute (FVI) in writing at least five calendar days, but no more than thirty calendar days, in advance of withdrawal. A student who returns to Florida Vocational Institute (FVI) after withdrawing must sign a new enrollment agreement and will be subject to the then-current price of tuition.

Refunds for Students Enrolled Prior to Visiting the Institution:

Students who have not visited the school facility prior to enrollment will have the opportunity to withdraw without penalty within three days following either attendance at a regularly scheduled orientation or following a tour of the facilities and inspection of the equipment.

A student’s last date of attendance as documented by Florida Vocational Institute (FVI) will be used to calculate any money the student owes and to calculate any refund the student is due. Student refunds are based on the formulas below:

Programs Billed by Term:

<table>
<thead>
<tr>
<th>Proportion of Total Term Taught</th>
<th>Tuition Due for the Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>20% or Less</td>
<td>Pro-Rata</td>
</tr>
<tr>
<td>20.01% up to and including 30%</td>
<td>30%</td>
</tr>
<tr>
<td>30.01% up to and including 40%</td>
<td>40%</td>
</tr>
<tr>
<td>40.01% up to and including 50%</td>
<td>50%</td>
</tr>
<tr>
<td>More than 50%</td>
<td>100% / No Tuition Refund</td>
</tr>
</tbody>
</table>
Programs billed by the Program:
Nursing Assistant/Home Health Aide, Home Health Aide and IT Help Desk programs only:

<table>

</tbody>
</table>

**RETURN TO TITLE IV POLICIES AND PROCEDURES**

In addition to having institutional charges adjusted based on the above Refund Policy, for a student who receives Title IV federal financial assistance, the School must determine the amount of Title IV funds a student has earned at the time of withdrawal using the Return of Title IV Funds Policy.

This policy applies to students who withdraw officially, unofficially or fail to return from a leave of absence or are dismissed from enrollment at the School. It is separate and distinct from the School refund policy.

The calculated amount of the Return of Title IV, HEA (R2T4) funds that are required to be returned for the students affected by this policy, are determined per the following definitions and procedures as prescribed by regulations.

The amount of Title IV, HEA student aid earned is based on the amount of time a student spent in academic attendance, and the total aid received; it has no relationship to student's incurred institutional charges.

Because these requirements deal only with Title IV, HEA funds, the order of return of unearned funds do not include funds from sources other than the Title IV, HEA programs.

Title IV, HEA funds are awarded to the student under the assumption that he/she will attend school for the entire period for which the aid is awarded. When student withdraws, he/she may no longer be eligible for the full amount of Title IV, HEA funds that were originally scheduled to be received. Therefore, the number of Federal funds earned must be determined. If the amount disbursed is greater than the amount earned, unearned funds must be returned.

The Payment Period for Clock Hour programs is one-half of the academic year or program length (whichever is less). The payment period for credit hour programs is at the beginning of each academic term/semester.

The Date of Determination is the date that the institution determines is the withdrawal date. For schools that are required to take attendance, the date of determination is no longer than 14 days after the Last Date of Attendance. The Date of Determination starts the clock for timely refunds of Title IV funds, within 45 days after the "Date of Determination".

The Withdrawal Date for schools required to take attendance is the Last Date of Attendance (LDA).

The institution has 45 days from the date that the institution determines that the student withdrew to return all unearned funds for which it is responsible. The school is required to notify the student if they owe a repayment via written notice.

The school must advise the student or parent that they have 14 calendar days from the date that the school sent the notification to accept a post withdraw disbursement. If a response is not received from the student or parent within the allowed time frame or the student declines the funds, the school will return any earned funds that the school is holding to the Title IV, HEA programs.

Post-withdrawal disbursements will occur within 90 days of the date that the student withdrew.
**Withdraw Before 60%**

The institution must perform a R2T4 to determine the amount of earned aid through the 60% point in each payment period. The institution will use the Department of Education's prorate schedule to determine the amount of the R2T4 funds the student has earned at the time of withdrawal.

**Withdraw After 60%**

After the 60% point in the payment period, a student has earned 100% of the Title IV, HEA funds he or she was scheduled to receive during this period. The institution must still perform a R2T4 to determine the amount of aid that the student has earned.

There are programs measured in clock hours, and these programs use the payment period for the period of calculation. Programs measured in credit hours use the academic term for the period of calculation.

**The Calculation Formula:**

Determine the amount of Title IV, HEA student aid that was disbursed plus Title IV, HEA student aid that could have been disbursed.

Calculate the percentage of Title IV, HEA student aid earned:

a) Divide the number of clock hours scheduled to be completed (from the first day of class until the last date of attendance) in the payment period as of the last date of attendance in the payment period by the total clock hours in the payment period.

\[
\text{HOURS SCHEDULED TO COMPLETE} \div \text{TOTAL HOURS IN PERIOD} = \% \text{ EARNED (rounded to one significant digit to the right of the decimal point, ex.: } 4493 = 44.9 \%.)
\]

b) If this percentage is greater than 60%, the student earns 100%.

c) If this percent is less than or equal to 60%, proceeds with calculation.

Percentage earned from (multiplied by) Total aid disbursed or could have been disbursed = AMOUNT STUDENT EARNED.

Subtract the Title IV aid earned from the total disbursed = AMOUNT TO BE RETURNED.

\[
100\% - \text{percent earned} = \text{UNEARNED PERCENT}
\]

Unearned percent (multiplied by) total institutional charges for the period = AMOUNT DUE FROM THE SCHOOL.

If the percent of Title IV aid disbursed is greater than the percent unearned (multiplied by) institutional charges for the period, the amount disbursed will be used in place of the percent unearned.

If the percent unearned (multiplied by) institutional charges for the period are less than the amount due from the school, the student must return or repay one-half of the remaining unearned Federal Pell Grant.

Student is not required to return the overpayment if this amount is equal to or less than 50% of the total grant assistance that was disbursed /or could have been disbursed. The student is also not required to return an overpayment if the amount is $50 or less.

The School will issue a grant overpayment notice to student within 30 days from the date the school’s determination that student withdrew, giving student 45 days to either:
1. Repay the overpayment in full to Florida Vocational Institute (FVI) OR
2. Sign a repayment agreement with the U.S. Department of Education.

Order of Return
The School is authorized to return any excess funds after applying them to current outstanding Cost of Attendance (COA) charges. A copy of the Institutional R2T4 work sheet performed on your behalf is available through the office upon student request.

In accordance with Federal regulations, when Title IV, HEA financial aid is involved, the calculated amount of the R2T4 Funds is allocated in the following order:
- Unsubsidized Direct Stafford loans (other than PLUS loans)
- Subsidized Direct Stafford loans
- Direct PLUS loans
- Federal Pell Grants for which a Return is required
- Federal Supplemental Educational Opportunity Grant
- Iraq and Afghanistan Service Grant for which a Return is required
- Other Title IV assistance
- State Tuition Assistance Grants (if applicable)
- Private and institutional aid
- The Student

Earned AID:
Title IV, HEA student aid is earned in a prorated manner on a per diem basis (clock hours/credit hours) up to the 60% point in the term. Title IV, HEA student aid is viewed as 100% earned after that point in time. A copy of the worksheet used for this calculation can be requested from the Financial Aid Administrator.

Post Withdraw
If you did not receive all the funds that you have earned, you may be due a post-withdraw disbursement. The School may use a portion or all your post-withdraw disbursement for tuition and fees (as contracted with the School). For all other school charges, the School needs your permission to use the post-withdraw disbursement. If you do not give permission, you will be offered the funds. However, it may be in your best interest to allow the school to keep the funds to reduce your debt at the school.

The post-withdrawal disbursement must be applied to outstanding institutional charges before being paid directly to the student.

Institution Responsibilities
The School’s responsibilities regarding Title IV, HEA funds follow:
- Providing students information with information in this policy;
- Identifying students who are affected by this policy and completing the return of Title IV funds calculation for those students;
- Returning any Title IV, HEA funds due to the correct Title IV programs.

The institution is not always required to return all the excess funds; there are situations once the R2T4 calculations have been completed in which the student must return the unearned aid.

Overpayment of Title IV, HEA Funds
Any amount of unearned grant funds that a student must return is called an overpayment. The amount of grant overpayment that you must repay is half of the grant funds you received. You must decide with the School or
Department of Education to return the amount of unearned grant funds.

**Student Responsibilities regarding Return of Title IV, HEA Funds**

- Returning to the Title IV, HEA programs any funds that were dispersed to the student in which the student was determined to be ineligible for via the R2T4 calculation.
- Any notification of withdraw should be in writing and addressed to the appropriate institutional official.
- A student may rescind his or her notification of intent to withdraw. Submissions of intent to rescind a withdraw notice must be filed in writing.
- Either these notifications, to withdraw or rescind to withdraw must be made to the official records/registration personal at your school.

**Refund vs. Return to Title IV**

The requirements for the Title IV, HEA program funds when you withdraw are separate from any refund policy that the School may have to return to you due to a cash credit balance. Therefore, you may still owe funds to the school to cover unpaid institutional charges. The School may also charge you for any Title IV, HEA program funds that they were required to return on your behalf.

**Return to Title IV Questions**

If you have questions regarding Title IV, HEA program funds after visiting with the financial aid office, you may call the Federal Student Aid Information Center at 1-800-4-fedaid (800-433-3243). TTY users may call 800-730-8913. Information is also available on student aid on the web [www.studentaid.ed.gov](http://www.studentaid.ed.gov).

*This policy is subject to change at any time, and without prior notice.

**Tuition, Fees, Programs & Curriculum**

All prices for programs are printed herein. There are no carrying charges, interest charges, or service charges connected or charged with any of these programs. Contracts are not sold to a third party at any time. Cost of credit is included in the price cost for the goods and services. The institution guarantees, to entering first time students, that tuition will not increase during the time they are enrolled.

**Contact Information for Assistance in Obtaining Financial Aid Information**

Eliezer Tabares- Financial Aid Director  
7757 West Flagler Street Suite 220

Friday 9:00 AM – 5:00 PM
STUDENT ACTIVITIES

Students interested in extracurricular activities help create a friendly atmosphere and provide a pleasant environment for the development of self-confidence and leadership. Activities vary depending upon student's preferences. Please contact the Instructor, Program Director, Director of Education, or the School President to discuss any planned activity.

STUDENT FAIR CONSUMER RIGHTS

You have the right to ask the school:

1. The name of the associations, agencies or governmental bodies which license Florida Vocational Institute (FVI) and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the schools licensing and accreditation.

2. The cost of attending the institution, including: Tuition and fees, books and supplies; estimates of typical commuting costs, and any additional cost of the program in which the student is enrolled or expresses a specific interest.

3. The academic program of the institution; Educational and training programs; the instructional laboratory and other facilities which relate to the academic program; the faculty and other instructional personnel.

4. A statement of the refund policy.

5. The methods by which and locations in which students and prospective students may obtain the information concerning their rights.

6. Availability of financial assistance including all federal, state, local private and institutional financial aid programs. The procedures and deadlines for submitting financial aid applications; Criteria used to select financial aid recipients; how is financial needs determined; how financial aid is awarded; and type and amounts of assistance in the financial aid package.

7. The standards which the students must maintain to be making satisfactory academic progress.

8. Special facilities and services provided to the handicapped.

9. Information on how to enroll in the GED preparation or ESOL workshops at no charge in the community.

Florida Vocational Institute (FVI) participates in the annual Integrated Postsecondary Education Data System (IPEDS) Survey conducted by the National Center for Education Statistics (NCES). The National Center for Education Statistics (NCES) survey program at the postsecondary education level provides statistical information used by planners, policy makers, and educators in addressing multiple issues. One major source of this information is the annual Integrated Postsecondary Education Data System (IPEDS) Survey. The IPEDS system, established as the core postsecondary education data collection program for NCES, is a system of surveys designed to collect data from all primary providers of postsecondary education. The IPEDS system is built around a series of interrelated surveys that collect school-level data in such areas as – school characteristics, enrollments, program completions, staffing patterns, finances, and financial aid. Information on NCES and IPEDS is available at – http://www.nces.ed.gov/IPEDS.
STUDENT RESPONSIBILITIES

Education costs time, money and effort. As a student, you should gather information about the school, its academic programs, dropout rate, complete cost of education/training, refund policy, financial programs and any other information you may find helpful in making a wise decision. You must:

1. Provide all documentation requested.
2. Read and understand all forms that you are asked to sign and keep copies of them.
3. Accept responsibility for the promissory note and all other agreements that you sign.
4. Promptly provide any information requested by the school.
5. Keeping the school informed if any change in address, name, marital status, financial situation, or change in your student status.
6. Notifying the school if you need to withdraw from the school or wish a leave of absence.

VOTER REGISTRATION POLICY

The school encourages its students to register to vote. The National Mail Voter Registration Form is available from the U.S. Election Assistance Commission (EAC) website. U.S. citizens who are students and of voting age, can find information specific to their states of residence from: www.eac.gov/voterresources or call the Election Assistance Office at (866) 747-1471.

STUDENT COMPLAINT/GRIEVANCE PROCEDURES

A grievance is a claim, complaint or an expression of concern made by a student regarding any aspect of his or her educational experience including misapplication of school policies or procedures, or unfair treatment such as coercion, reprisal or intimation by an instructor or another school employee. A student should first discuss the concern with his/her instructor or Program Director immediately.

An appeal is an escalation to the next level of authority. If it is about an academic decision, such as a final grade, please see the academic appeal process.

A student has a right to appeal all matters with respect to:
• Admission decisions
• Tuition and fee matters
• Financial award or policy matters, including satisfactory academic progress
• Education policies, procedures and grading concerns
• Disciplinary action taken a violation for student conduct

Certain decisions may not be appealed. If a student has failed to meet the standards of Satisfactory Academic Progress (SAP) including exceeding the maximum timeframe to complete the program, he or she is not entitled to an appeal unless there is documenting mitigating circumstances such as medical or disability conditions that impacted the student's ability to participate in the program. The specific requirements for SAP appeal are contained in the School's SAP policy.

1. The first step is to address and resolve the dispute or complaint with the person involved through discussion. A student with a dispute or concern should raise the concern as soon as possible to assure that a settlement is made in a timely fashion.

2. If a dispute or concern cannot be resolved with the person involved through discussion, then the student needs to immediately verbally raise his or her concern to the Director of Education so the issue can be addressed in a timely fashion.
3. If the dispute cannot be resolved with the Director of Education, then the next step in the appeal process is to appeal in writing to the School President. The written complaint should be submitted within seven (7) business days of the incident or the decision. The written appeal document should include a description of the disputed issue, the date or dates when the issue arose, the reason why the student is appealing the decision and steps taken to resolve the dispute to date. When submitting the appeal, the student should include as much factual evidence as possible. The School President will oversee the gathering of additional data about the issue or incident as necessary. Then the School President will convene the Appeals Committee which will consist of the School President and heads of other departments to meet with the student if requested or otherwise assess and develop a resolution to the complaint. A response from the Appeals Committee will be provided in writing to the student with ten (10) business days. A decision will be provided and delivered to the student in person if the student is on campus or to the student’s e-mail address or mailing address with acknowledgement of receipt required.

4. If the dispute has not been resolved and the student is still unsatisfied with the response from the School’s Appeal Committee then the student may take a fourth step and file an appeal to SB Education at 350 East Olas Blvd. Suite 1250 Fort Lauderdale, FL 33301. The appeal must be in writing and must be received within seven (7) business days of being notified of the Appeal Committee’s decision. The President/CEO will conduct his/her own investigation of the issue and will respond to student within ten (10) business days of receiving the escalated complaint. A decision will be provided and delivered to the student via the student’s e-mail address or mailing address with acknowledgement of receipt required.

5. If the dispute remains unresolved after the evaluation by the President/CEO of SB Education then the student should address his or her concern to the state licensing authority, and/or the School’s accrediting body or the Commission of Independent Education.

The title and address of the state licensing authority is:

COMMISSION FOR INDEPENDENT EDUCATION (CIE)
FLORIDA DEPARTMENT OF EDUCATION
325 West Gaines Street, Suite 1414
Tallahassee, Florida 32399-0400

Participates in Financial Aid programs

Note: All Non-degree diploma level credit hour programs are assigned “Out of Class/Prep Hours” (homework hours) that are indicated as “Out of Class/Prep Hours” in the program descriptions.
FVI SCHOOL OF NURSING

Mission
The School of Nursing’s mission is to develop student knowledge, skills, and competencies to provide safe and effective care, promote the health and wellbeing of the client, and enter the profession of nursing serving a diverse community.

Philosophy
The School of Nursing administration and faculty believe nursing is an art and science that requires the nurse to apply scientific and clinical reasoning in care of the client. Caring is provided through mutual respect and trust in a collaborative environment which provides support, hope, and compassion to help the client achieve desired outcomes.

Essentials Abilities Standard for Nursing Students
The profession of nursing requires the caregiver to be physically and mentally fit to perform the duties of care. FVI has adapted the standards established by the National Council of State Boards of Nursing (NCSBN).

The Institute will make appropriate academic accommodations to facilitate enrollment and participation of qualified individuals with temporary or permanent disabilities.

1. The rights of applicants and students
2. The safety of the applicant, student, classmates, and clients
3. The significant clinical component of the program curriculum
4. The requirements imposed by clinical agency agreements
5. The condition for licensure as a Registered Nurse

The competing interest and the educational activities required to complete the Associate of Science in Nursing program may prevent some prospective students and active students with disabilities from qualifying for enrollment or continued enrollment.

Applicants who feel that they may have difficulty meeting the Essential Abilities Standards are encouraged to meet with the campus administrator to be evaluated for appropriate accommodations.

Prerequisites
The Associate of Science in Nursing program was designed to progressively develop student knowledge, skills, and competencies as they advance through the degree plan. Courses have been developed to build on previous experiences and allow the student to apply knowledge, skills, and competencies in a progressive and cumulative fashion.

General Education
The Associate of Science in Nursing program requires the student to successfully complete general education prerequisites prior to progressing to nursing concentration courses. Students must achieve a minimum of a letter grade of “C” with a minimum course GPA of 2.0 for each required general education course with the exception of the required science courses. Students must achieve a minimum of a letter grade of “C+” with a minimum course GPA of 2.3 for Anatomy & Physiology I and Lab, Anatomy and Physiology II and Lab and Microbiology and Lab courses.

Students who fail a general education course may repeat a course only one time. Failure of the same course, or failure of any three general education courses shall result in the student being dismissed from the Associate of Science in Nursing program.

The Diploma in Practical Nursing program requires students achieve a minimum of a letter grade of “C+” with a minimum course GPA of 2.3 for Anatomy & Physiology and Lab. Students who fail any course may repeat a course only one time. Failure of the same course twice shall result in the student being dismissed from the Diploma in Practical Nursing program.
**Nursing Concentration Courses**
Nursing programs provide four levels of nursing concentration courses. Each level increases in difficulty and builds on prior experiences. Students are expected to retain knowledge, skills, and competencies from prior courses as they progress through the nursing curriculum. Students must achieve a minimum of a letter grade of “C+” with a minimum course GPA of 2.3. Students who fail a nursing concentration course may repeat a course only one time. Failure of the same course, or failure of any three nursing concentration courses shall result in the student being dismissed from the Associate of Science in Nursing program.

**Leveling and Cumulative Knowledge, Skills, and Competencies**
Students are expected to apply and analyze knowledge, skills, and competencies from previous course work as they progress through their Nursing program. The Curriculum has been divided into four levels. The following table presents the levels with course sequencing.

<table>
<thead>
<tr>
<th>Level</th>
<th>Level I</th>
<th>Level II</th>
<th>Level III</th>
<th>Level IV</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASN Courses</td>
<td>NUR1000</td>
<td>NUR1500</td>
<td>NUR2100</td>
<td>NUR2600</td>
</tr>
<tr>
<td>PN Courses</td>
<td>PRN0100</td>
<td>PRN0200</td>
<td>PRN0300</td>
<td>PRN0400</td>
</tr>
</tbody>
</table>

As the curriculum progresses, so will the level of difficulty of content and evaluation. Students are encouraged to seek advising and tutoring to maintain and improve individual performance as each course examination shall contain content from previous courses.

**Course Examinations**
Course examinations shall be comprehensive and delivered through the student Learning Management System (LMS). Examinations are designed to assess the student’s achievement of the Course Student Learning Outcomes (CSLOs) and their progress towards meeting the End of Program Student Learning Outcomes (EOPSLOs). Alternate format questions will be delivered to include adaptive questions in nature. Students are expected to achieve the minimum passing score on all course final exams. Please see the grading section of the Catalog for further information.

**Final Program Examination**
Nursing programs have a final comprehensive examination for which the student must achieve the required grade to successfully pass the final program course. Students will have an opportunity to take a non-weighted practice final exam at least two weeks before the final program examination. An opportunity to remediate areas of weakness will allow students to improve identified content in preparation for the final examination.

**Final Program Examination Failure**
Should a student fail the final program examination, the student may appeal for an opportunity to repeat the examination. If the appeal is accepted, the student shall receive a grade of “incomplete” and will be permitted to take a replacement examination at a predetermined make-up date. The make-up date is not negotiable. Failure to complete the replacement examination on the established date and time shall result in the incomplete grade returning to the original grade. At no time shall a second appeal be accepted or approved. Replacement examination fee applies.

**Grading**
A minimum cumulative GPA of 2.0 is required for a student to successfully complete the Associate of Science in Nursing or Practical Nursing program. The minimum passing score for all science and nursing concentration courses is a grade of “C+” (78% or 2.3 GPA). Non-science general education courses are accepted with a minimum grade of “C” (73% or 2.0 GPA).
**Program Completion**
Nursing programs must be completed within 150% of the allowed degree plan time. Should a student fail to meet the maximum timeframe allowed, the student shall be dismissed from the program. Please see the Satisfactory Academic Progress policy for further information and guidance.

**Graduation Requirements**
For the student to graduate the Nursing programs, they must meet the following requirements:

1. Student has a minimum cumulative GPA of 2.0; Practical Nursing requires a minimum cumulative GPA of 2.3.
2. Student has completed and passed all required clinical hours
3. Student is current with financial obligations to the Institute
4. Student has met with the Career Services department for assistance with job placement or provides documentation of employment
5. Student has completed Exit Interview with the Financial Aid
6. Student has completed the Graduation Clearance form and submitted it to the Registrar at least 60 days before the last day of class

**Nursing Licensure**
Students must be aware the Institute does not guarantee eligibility for licensure. Applicants should review the Florida Board of Nursing’s website for licensure requirements and criteria which may result in disqualification for licensure.

The Associate of Science in Nursing and the Practical Nursing curriculum have been designed to meet the Florida Board of Nursing requirements. Applicants and students must note that FVI does not guarantee the program will be accepted by other states or territories of the United States. Applicants desiring licensure outside of Florida should contact the appropriate state board of nursing prior to enrollment.

**Documentation of Program Graduation**
Upon successfully meeting graduation requirements for the Associate of Science in Nursing program or the Practical Nursing program as published in the School Catalog, the student’s transcript will be prepared and sent to the Florida Board of Nursing. The process of graduation clearance and sending the transcript to the Florida Board of Nursing may take up to 60 days from the date of program completion. Additional processing time by the Florida Board of Nursing should also be anticipated. Please see the Florida Board of Nursing’s website for licensure and application processing information.

**Graduate Preparation for Licensure**
FVI offers graduates free licensure preparation for up to 90 days following program completion. The graduate preparation program is custom designed for each student and is managed by an assigned faculty mentor. Graduates should anticipate testing NCLEX within 90 days of graduation and being on campus at least twice per week until the NCLEX is taken. Graduate engagement and completing activities, assessments, and advising is critical to successfully passing the NCLEX.
ASSOCIATE OF SCIENCE IN NURSING

Program Objective/Description:
The Associate of Science in Nursing program prepares the student to provide safe and effective care of the client across the lifespan. Students will develop knowledge and skills necessary to promote health and provide care for clients with alternations in psychosocial and physiological integrity. Upon completion of the program, the student will demonstrate competencies necessary for an entry level professional nursing position.

End of Program Student Learning Outcomes
Upon the completion of the Associate of Science in Nursing program, the graduate will demonstrate the knowledge, skills, and competencies to:

1. Perform safe, effective and appropriate nursing care to clients.
2. Demonstrate ability to provide holistic care to culturally diverse clients, families, and groups.
3. Collaborate effectively with clients, families, and other members of the health team.
4. Integrate best current evidence-based practice within the ethical legal framework in client care.
5. Utilize nursing process and critical thinking to support sound clinical decisions.
6. Use appropriate information management tools to monitor outcomes of care processes.
7. Participate in activities that promote professional development and personal growth.

Program Outcomes
The Associate of Science in Nursing program has identified the following program outcomes:

1. The student will complete the program within 150% of the program length
2. The graduate shall achieve licensure as a Registered Nurse
3. The licensed graduate shall secure a job as a Registered Nurse

Program Length: 90 Instructional weeks (22 months)
Delivery: Residential in English
Location: Miramar

Class Schedule: Day- Monday thru Friday 8:30am- 3:00pm
Evening- Monday thru Friday 5:30pm-10:30pm

Students enrolled in this program must wear FVI school uniforms. Uniforms are available for purchase in the Business Office.

DISCLOSURE: To work in a hospital setting in the State of Florida, PCT graduates must pass the state Certified Nursing Assistant written and practical exam. For specific eligibility requirements, please Florida Board of Nursing website for the examination requirements: http://floridasnursing.gov/licensing/certified-nursing-assistant-examination/

NOTE: The initial exam voucher for Florida Certified Nursing Assistant and the initial Basic Life Support (BLS) course fee are included in the program. Students must demonstrate practical competency by Lead Instructor before the CNA application will be submitted.
PRACTICAL NURSING

Program Objective/Description:

The Diploma in Practical Nursing program prepares the student to provide safe and effective care of the client across the lifespan. Students will develop knowledge and skills necessary to promote health and provide care for clients with alternations in psychosocial and physiological integrity. Upon completion of the program, the student will demonstrate competencies necessary for an entry level professional Practical Nursing position. A variety of healthcare settings. The Practical Nursing graduate is eligible to sit for Florida State Certification NCLEX-PN Exam.

End of Program Student Learning Outcomes

Upon the completion of the Diploma in Practical Nursing program, the graduate will demonstrate the knowledge, skills, and competencies to:

1. Coordinate safe and effective care of clients with other members of the health team.
2. Contributes to the protection of clients and health care personnel from health and environmental hazards.
3. Incorporate knowledge of expected stages of growth and development and prevention and early detection of health problems.
4. Assist in the promotion and support of the emotional, mental and social wellbeing of clients.
5. Provides comfort to clients and assistance in the performance of activities of daily living.
6. Provides care related to the administration of medications and monitors clients who are receiving parenteral therapies.
7. Reduces the potential for clients to develop complications or health problems related to treatments, procedures or existing conditions.
8. Provides care for clients with acute, chronic or life-threatening physical conditions.

Program Outcomes

The Diploma in Practical Nursing program has identified the following program outcomes:

1. The student will complete the program within 150% of the program length
2. The graduate shall achieve licensure as a Practical Nurse
3. The licensed graduate shall secure a job as a Practical Nurse

Students enrolled in this program must wear FVI school uniforms. Uniforms are available for purchase in the Business Office.

NOTE: The initial exam voucher for the Nationally Registered Certified Medical Assistant (NRCMA), Nationally Registered Certified Phlebotomy Technician (NRCPT), Nationally Registered Certified Echocardiography Technician (NRCET), and Basic Life Support (BLS) are included in cost of the program.
MENTAL HEALTH TECHNICIAN

Program Objective/Description:
The Mental Health Technician program will prepare students to perform duties of patient care under the supervision of a registered nurse. MHT/BHT will learn to provide direct patient care while effectively and therapeutically interacting with patients or clients, their families and other members of a health care team while delivering care to those under supervision in an in-patient or community-based setting. MHT/BHTs must demonstrated competency through training, experience and clinical supervision in the following performance domains of 1) clinical competency 2) client and personal safety 3) co-facilitation of therapeutic activities and support groups 4) documentation and patient confidentiality and; 5) ethical and professional responsibilities.

Student will learn how to provide clinical support services in all in-patient and community-based program. In addition, the MHT/BHT students will learn all required clinical skills required to work as a Mental health Technician in a substance abuse, mental health and hospital setting. The program includes nonviolent crisis prevention® training and basic life support (CPR) training and HIV/AIDS, HIPPA and infection control inservices. Students will be strongly encouraged to challenge the Florida Nursing Assistant exam as some hospitals require NA certification in addition to the Mental Health Technician certification. Students will prepare to sit for the Mental Health Technician certification.

**TOTALS:** 34 720 180

Students enrolled in this program must wear FVI school uniforms. Uniforms are available for purchase in the Business Office.

DISCLOSURE: To work in a hospital setting in the State of Florida, MHT graduates must also pass the state Certified Nursing Assistant written and practical exam. For specific eligibility requirements, please Florida Board of Nursing website for the examination requirements: [http://floridasnursing.gov/licensing/certified-nursing-assistant-examination/](http://floridasnursing.gov/licensing/certified-nursing-assistant-examination/)

NOTE: The initial exam voucher for Florida Certified Nursing Assistant and the initial Basic Life Support (BLS) course fee are included in the program. Students must demonstrate practical competency by Lead Instructor before the CNA application will be submitted.
PHARMACY TECHNICIAN

Program Objective/Description:
The Pharmacy Technician program provides instruction in how to assist the pharmacist in the packing and distribution of medication. Graduates can find employment in hospitals (private and government), nursing care facilities, private and chain drug stores, drug manufacturers, wholesale drug houses, and health maintenance organizations. Students will also study the professional and technical skills necessary for direct employment as a pharmacy technician.

This program prepares students for a position as a pharmacy technician. A diploma will be awarded upon successful completion of this program. This program is offered via live online where more than 50% of courses are offered either online or via hybrid delivery.

Students enrolled in this program must wear FVI school uniforms. Uniforms are available for purchase in the Business Office.

DISCLOSURE: Student must become registered as Registered Pharmacy Technician with the Florida Board of Pharmacy before he/she can begin working in their field of training in the State of Florida. All employers will conduct a background check and drug screen for employment in the State of Florida.

NOTE: The initial application fee for the Registered Pharmacy Technician with the Florida Board of Pharmacy, the initial exam voucher for the Nationally Certified Pharmacy Technician Board (PTCB), and Basic Life Support (BLS) course fee are included in the cost of the program.
CYBER SECURITY AND NETWORK TECHNICIAN (TD)

Program Objective/Description:
As a Cyber Security and Network Technician, students are able to validate the ability to handle day-to-day management of the server operating system, file structure, and directory services. Students will also learn to handle software distribution and updates; monitor servers; provide troubleshooting support; build and configure servers; perform scheduled vulnerability-assessment scans; and monitor logs for firewalls and intrusion-detection systems. At the completion of this program, students will be qualified to manage, support, and troubleshoot information systems in a wide range of computing environments such as Microsoft Windows® server and Linux.

Additionally, the program will provide the concepts, commands, and practice required to configure Cisco® switches and routers in a multi-protocol network environment. Finally, students also learn cloud-based systems administration. This program contains training and certification to help students build and validate their cloud skills. Content is delivered through lectures, discussions, demonstrations, exercises, and virtualized laboratory projects.

Certification Preparation: Students will be equipped to sit for the following certification exams: CompTIA® Network+, CompTIA® Security+, AWS certified Cloud Practitioner, and AWS certified Solutions Architect Associate.

This program is offered via live online where more than 50% of courses are offered either online delivery.

WEB DEVELOPER (TD)

Program Objective/Description:

In the Web Developer program, students are offered a wide array of fundamental and in-depth training on front-end web development, as well as the fundamentals of back end development. Students learn how to write effective front-end programs, which interact with servers and load asynchronously. Students will also learn to design and implement graphical interfaces which follow best practices of UX design and are mobile-friendly. The back-end experience will include an introduction to common design patterns.

Training Objective: To build an understanding of designing, creating, and maintaining websites through different programming languages.

WEB DESIGN AND DIGITAL MARKETING (TD)

Program Objective/Description:
The web design and digital marketing program will train students in all aspects of the design process of websites and web applications, as well as in the process of effectively promoting them through digital marketing. Students will learn not only HTML, CSS, and JavaScript but also the use of industry-standard tools such as image and vector manipulation programs within the Adobe Creative Cloud Suite. Students will receive comprehensive training on client-side programming, AJAX programming, CSS frameworks, build tools required for front-end developers, design techniques, color, typography, responsive web design, and user experience basics. Students will also receive an introduction to PHP and learn how to correctly extend, modify, and maintain WordPress themes and plug-ins. After acquiring basic front-end developer skills, students will learn about UI/UX design principles, social media marketing, search engine optimization (SEO), paid search engine marketing (SEM), marketing messaging, marketing strategy, and analytics for digital marketers.

Training Objective: To build an understanding of designing, creating, and maintaining websites using HTML5/CSS3/JS and WordPress, as well as to gain an understanding of how to promote a web presence to accomplish business objectives.

Technologies Covered: HTML5, CSS, JavaScript, WordPress and Adobe Creative Suite

Program Length: 27 Instructional weeks
Delivery: Online/Hybrid or Residential

COURSE NUMBERING

All courses will be considered as first level courses for all diploma level programs. Each course is identified by an alpha-numeric identifier and course description.

The course codes are based on program and related topic. Those are defined as follows:

AHP: Allied Health Professional
GEN: General
NA/HHA: Nursing Assistant/Home Health Aide
MAS: Medical Assistant
PCT: Patient Care Technician
CPR: Cardiopulmonary Resuscitation
PHT: Pharmacy Technician
PCD: Professional Career Dev.
WEB: Web Development
BSC: Biology Science
ENC: English
HUM: Humanities
MAT: Mathematics
MCB: Microbiology
PSY: Psychology
NUR: Nursing

ASSOCIATE DEGREE COURSE DESCRIPTIONS

BSC2085 Anatomy and Physiology, I and Lab 4 Credit Hours
(45 theory hours, 30 lab hours, 11.25 out of class prep hours)
This course provides a comprehensive look at the human body’s structure and functions. Topics include organization of the body, characteristics of life anatomical terminology, how the body maintains homeostasis, the relationship of chemistry to anatomy and physiology, and cell function and division. The skin, skeletal system, muscles and nervous system are examined. Sensory organs and the endocrine system are also covered. Several diseases and disorders are discussed, as well as the cause, detection, and treatment of them. Students will also perform and complete labs with accompanying assessments as a lab component of this course. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

BSC2086 Anatomy and Physiology, II and Lab 4 Credit Hours
(45 theory hours, 30 lab hours, 11.25 out of class prep hours)
Building on Anatomy and Physiology I, this course examines major parts of the body and how they work independently as well as together. The reproductive system is discussed as well as stages of human development. Students learn about the lymphatic system and the three lines of defense the body has against pathogens. The cardiovascular, digestive, respiratory, and urinary systems are covered as well as nutrition, metabolism, body fluid balances, and aging. Prerequisite(s): BSC2085; Class Type(s) Offered: (O) Online (R) Residential

ENC1101 English Composition I 3 Credit Hours
(45 theory hours, 0 lab hours, 11.25 out of class prep hours)
This course examines phases of the writing process, with emphasis on the structure of writing and techniques for communicating clearly, precisely, and persuasively. Students will develop the grammar, punctuation, critical thinking, organizational and research skills associated with writing. To promote the writing process, students will brainstorm, gather and synthesize facts, discuss audience considerations, draft, revise, edit, proofread, and analyze their own and others’ work in written and oral formats. In this course, students will also improve their ability to conduct research, and compose and communicate professionally in written, oral, and virtual/visual modalities. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential
HUM1205  Human Diversity  3 Credit Hours
(45 theory hours, 0 lab hours, 11.25 out of class prep hours)
This course will define “culture” and examine how cultural variables and practices influence communication. It will emphasize achieving cultural communication competence and reducing cultural conflict by examining the role of identity, ethnicity, gender, perception, values, beliefs, and attitude within and outside one’s culture(s). Students will analyze the dimensions of cultural values and cultural communication styles. They will analyze verbal and nonverbal communication styles associated with race, gender, and class. Students will also examine multiculturalism in the workplace and analyze the dynamics of communication among diverse people and ethnic groups. Upon successful course completion, students will be able to relate and compare different experiences and make connections between dominant/subordinate cultures and one’s own life. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

MAT1105  College Math  3 Credit Hours
(45 theory hours, 0 lab hours, 11.25 out of class prep hours)
This course takes students through topics that provide a working knowledge of college level algebra and its applications. The course begins with the basics of algebra covering operations with numbers, fractions, decimals, percentages and quadratic equations. Students will also learn to perform operations on real numbers and polynomials and solve both linear and quadratic equations and inequalities. Arithmetic and geometric sequences are examined, and linear equations and inequalities are discussed. Student learn to graph linear, quadratic and absolute value, and piecewise-defined functions and solve and graph exponential and logarithmic equations. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

MCB2010  Microbiology and Lab  4 Credit Hours
(45 theory hours, 30 lab hours, 11.25 out of class prep hours)
This course teaches microbiology as it applies to the healthcare field. Students will study pathogenic microorganisms and their role in human disease, human immunology, symptoms and treatment of microbial infection, and prevention measures against microbial infection. This course will provide an understanding of recognition, treatment and prevention of microbial pathogenesis. Students will also complete experiments, track and record results, answer lab-based questions, and complete lab-based assessments to meet the lab requirements of the course. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

PSY2012  General Psychology  3 Credit Hours
(45 theory hours, 0 lab hours, 11.25 out of class prep hours)
This course provides broad coverage of the current body of knowledge of the science of psychology, including basic concepts, methods, theories and applications that constitute the discipline. Students will learn how cognitive, emotional, physical, social, and psychological processes influence their lives, chosen areas of study, and careers. Students will apply the skills of critical thinking, observation, and information gathering and analysis as they examine psychological phenomena. Upon successful course completion, students will be able to use fundamental psychological theories to build better self-awareness and understanding of human behavior. Prerequisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

NUR1000  Nursing Concepts I  9 Credit Hours
(75 theory hours, 30 lab hours, 135 clinical hours, 18.75 out of class prep hours)
This course introduces the student to the integrated process and basic concepts of client needs, across the lifespan, including the family, and community. Students will develop general knowledge and skills related to providing basic nursing care to clients from varied backgrounds, beliefs and cultures. Emphasis is given in developing communication, collaborative, and critical thinking skills. The nursing process and evidence-based practice are taught in detail as bases of nursing practice. Foundation of medical surgical nursing, geriatrics, pediatrics, and obstetrics concepts of health, wellness, illness cultural and spirituality are introduced. Nursing practice of informatics and documentation are integrated into the care of clients, family, and community. Focus will be placed on role development, legal aspects of practice, health teaching and counseling skills. Concepts of Patient Safety, Asepsis and Infection Control, Hygiene and Personal Care, Wound Care, Nutrition, Pain Management,
Oxygenation, Fluid and Electrolyte Balance, Bowel and Urinary Elimination, Cognition and Sensation, Sleep, and Sexuality, Perioperative Nursing Care, Public Health and Community Based Nursing will be taught in detail. Students are prepared for the NCLEX-RN Exam using the NCSBN NCLEX-RN Blueprint as a guide. Prerequisites: ENC1101, MAT1105, PSY2012, BCS2086, HUM1205, MCB2010.

Class Type(s) Offered: (R) Residential

NUR1100 Pharmacology for Nursing 3 Credit Hours
(45 theory hours, 0 lab hours, 11.25 out of class prep hours)
This course introduces the student to basic principles of pharmacology and safe administration of medication throughout the client’s lifespan. A review of the body structure and function as well as legal aspect of nursing practice will be reviewed. Basic pharmacological concepts of pharmacodynamics and pharmacokinetics will be discussed as bases in medication administration to all categories of clients, from pregnancy, newborn, pediatrics, and geriatrics, using the nursing process and evidenced-based nursing practice. The course will cover medication classifications for common medical-surgical conditions, diseases and illnesses including contraindication, side effects, adverse effects, and most importantly nursing care and management of clients taking the medications, drugs, and herbal preparations. Students are prepared for the NCLEX-RN Exam using the NCSBN NCLEX-RN Blueprint as a guide Prerequisites: Prerequisites: ENC1101, MAT1105, PSY2012, BCS2086 HUM1205, MCB2010; Class Type(s) Offered: (R) Residential

NUR1500 Nursing Concepts II 12 Credit Hours
(135 theory hours, 0 lab hours, 135 clinical hours, 33.75 out of class prep hours)
This course develops the skill, knowledge, and competencies of the student in the safe care of clients with medical-surgical related acute and chronic related illnesses and injuries across the client’s lifespan. Concepts relating to nursing care and management of diseases of the cardiovascular, peripheral vascular, respiratory, musculoskeletal, gastrointestinal, endocrine, and neurological are emphasize in the course. To link relationship between neurological disorders, students will be introduced to mental health concepts across the lifespan. Applying knowledge from previous course work, the student will build interpersonal relationships and demonstrate effective communication skills. Common mental health disorders, substance abuse, domestic abuse and violence, crisis intervention and coping with stress, and suicidal assessments are covered in the course for all categories of clients. Students are prepared for the NCLEX-RN Exam using the NCSBN NCLEX-RN Blueprint as a guide Prerequisites: ENC1101, MAT1105, PSY2012, BCS2086, HUM1205, MCB2010; Class Type(s) Offered: (R) Residential

NUR2100 Nursing Concepts III 12 Credit Hours
(135 theory hours, 0 lab hours, 135 clinical hours, 33.75 out of class prep hours)
This course allows the student to apply and analyze care of clients with medical-surgical related acute and chronic related illnesses and injuries across the lifespan. More specialized medical and surgical conditions are covered in the course, such as, care and management of clients with cancer, burns, sensory deprivation, and emergency. The student will provide care to the client, family, and community demonstrating competency and leadership while reinforcing health promotion and maintenance concepts. Specialized care of obstetrical, newborn and pediatric clients in various healthcare environments will also be introduced. The student will apply knowledge and skill to the care of the client and family with a focus on safe care, health education, growth and development principles, and legal aspects of practice. Students are prepared for the NCLEX-RN Exam using the NCSBN NCLEX-RN Blueprint as a guide. Prerequisites: ENC1101, MAT1105, PSY2012, BCS2085, BSC2086 HUM1205, MCB2010, NUR1000, NUR1100, NUR1500; Class Type(s) Offered: (R) Residential

NUR2600 Nursing Concepts IV (Capstone) 12 Credit Hours
(135 theory hours, 0 lab hours, 150 clinical hours, 33.75 out of class prep hours)
This course allows the student to analyze knowledge, skills, and competencies acquired through previous course work. The student will identify areas requiring further development in the care of the client across the lifespan with a focus on the integrated process, client needs, and quality and safety in healthcare. Concepts of medical surgical, obstetrics, pediatrics, geriatrics, family, community health, nutrition, human growth and development throughout the lifespan, body structure and function, interpersonal relationship skills, mental health concept, pharmacology and administration of
medication, legal aspects of practice, leadership skills, professional role and functions, health
教ive and counselling skills, and personal concepts are reviewed. Prevention of Medical Errors,
Florida Laws and Rules, Recognizing Impairment at the Workplace, Domestic Violence, HIV/AIDS,
Human Trafficking are covered in the course as required for registration by the board of nursing. Students
are prepared for the NCLEX-RN Exam using the NCSBN NCLEX-RN Blueprint as a guide Prerequisites:
ENC1101, MAT1105, PSY2012, BSC2086, HUM1205, MCB2010, NUR1000, NUR1100, NUR1500, NUR2100; Class Type(s) Offered: (R) Residential
AHP1000  Introduction to Healthcare  3 Credit Hours  
(45 Theory hours; 15 lab hours; 15 prep hours) 
The course is designed to offer the student a foundation in allied health career skills. Students will learn medical terminology, as well as first aid procedures and CPR. Students will demonstrate knowledge of the healthcare delivery system, and health occupation, basic infection control procedures, HIPAA guidelines, and the general laws and ethical responsibly of healthcare workers. Student will learn to emergency situations, practice safety and security procedures, apply science skills, interpersonal communications skills concepts, and understand the developmental principles of the life cycle. In services given in this course: HIPAA, OSHA, Domestic Violence, Communication with cognitively impaired clients, and Medical Errors certificates. Pre-requisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

AHP1010  Basic Anatomy and Physiology  3 Credit Hours  
(45 Theory hours; 15 lab hours; 15 Prep Hours) 
Students are introduced to anatomical structures and physiological function of the human body. This course defines the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, respiratory, digestive, urinary and reproductive systems. Virtual practical laboratory experiences included in the course provide an understanding of basic anatomy and physiology which is the foundation for a career in health professions. Instructor may provide additional resources or materials as a part of the lesson plan. Pre-requisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

AHP1020  Medical Insurance and Medical Office Procedures  3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours) 
Upon completion of this course, students will demonstrate professional and appropriate phone technique, explain the role of the medical assistant in the medical office, demonstrate appropriate professional behavior for the medical office, explain the use and function of computers in the medical office, demonstrate appropriate written communication skills and mail processing, demonstrate cordial courteous and professional patient reception, and patient processing. The students will develop the basic skills necessary to initiate the claims development procedures of the medical office. Students will learn how to collect pertinent insurance information, integrate it into a patient’s file, complete billing forms, perform procedural and diagnostic coding and communicate with insurance companies. Pre-requisite(s): None Class Type(s) Offered: (H) Online with 1 day on campus (R) Residential

AHP1025  Pharmacology  3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours) 
Dosage and calculations are the basic concepts of this course. Students will develop the knowledge needed to understand basic dosage orders, as well as measure and record calculations for such dosages. Pre-requisite(s): None Class Type(s) Offered: (O) Online (R) Residential

AWS0315  Cloud Foundations 2 Credit Hours  
(15 Theory hours; 45 lab hours; 15 prep hours) 
This course provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. The course content is delivered through lectures, hands-on lab reinforcing some of the core concepts. This course also helps prepare students for an AWS Certified Cloud Practitioner certification. Pre-requisite(s): CET0100 and CNT0115; Class Type(s) Offered: (O) Online (R) Residential

AWS0317  Cloud Architecting  2 Credit Hours  
(15 Theory hours; 45 lab hours; 15 prep hours) 
This intermediate course covers the fundamentals of building IT infrastructure on AWS and helps students gain the skills they need to pursue the AWS Certified Solutions – Architecture certification. The course content is delivered through lectures, hands-on labs, and project work. Pre-requisite(s): AWS0315
Class Type(s) Offered: (O) Online  (R) Residential

**BSC0185 Anatomy & Physiology with Lab**

(45 Theory hours; 30 lab hours; 11.25 prep hours)

This course provides a comprehensive look at the human body’s structure and functions. Topics include organization of the body, characteristics of life anatomical terminology, how the body maintains homeostasis, the relationship of chemistry to anatomy and physiology, and cell function and division. The skin, skeletal system, muscles and nervous system are examined. Sensory organs and the endocrine system are also covered. Several diseases and disorders are discussed, as well as the cause, detection, and treatment of them. Students will also perform and complete labs with accompanying assessments as a lab component of this course. **Pre-requisites:** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**CAP2000 Capstone Project**

(15 Theory hours; 45 lab hours; 15 prep hours)

The Capstone project is designed for the students to select a key project based on either PHP or Node.JS and through applied learning develop a portfolio project in a structured learning environment. The Capstone Project gives the student an opportunity to apply everything they have learned. The students will form teams, create project plans, conduct risk analyses, create test plans, and write software. True to the real-world experience of software development, students can expect to have to adjust project plans and deliverables. The components the students will learn during this phase are Project Selection, Team Selection, Role Assignment, and Planning, Technology Research, Feasibility Study, and Prototyping, Platform, Language, and DBMS Selection, Development Methodology, Architecture, and Framework Selection. This will culminate in Software Delivery, Presentation Preparation, and Software Project Presentations. **Pre-requisites:** COP1000, WEB2000, WEB2020 and WEB2040; **Class Type(s) Offered:** (O) Online  (R) Residential

**CET0100 Maintaining Computers and Operating Systems**

(15 theory hours; 45 lab hours; 15 prep hours)

Students will learn the fundamental components and functions of computer technology, networking, and security. They will also gain the skills required to identify hardware, peripheral, networking, and security components. In addition, they will learn to install, configure, upgrade, and maintain PC workstations, the Windows OS and SOHO networks. Students will utilize troubleshooting techniques and tools to effectively and efficiently resolve PC, OS, and network connectivity issues and implement security practices. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**CET0260 Security+**

(15 theory hours; 45 lab hours; 15 prep hours)

Upon successful completion of this course, students will be able to identify fundamental concepts of computer security, major security threats and vulnerabilities, and network security. Students will gain the skills to manage application, data, and host security by accessing control, proper authentication, and thorough account management. They will also learn to manage certificates. In addition, topics such as compliance & operational security, risk management, and disaster recovery planning will also be covered in this course. Students will be prepared to sit for the CompTIA® Security+ certification exam. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**CNT0115 Introduction to Networking**

(15 theory hours; 45 lab hours; 15 prep hours)

Students will learn to identify the basic components of network theory, major network communications methods, and network data delivery methods. They will be able to list and describe all network media and hardware components, including becoming knowledgeable on the specific differences between TCP/IP, LAN, and WAN network implementations. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**CNT0215 Advanced Networking Concepts**

(15 theory hours; 45 lab hours; 15 prep hours)

Students will learn to identify the basic components of network theory, major network communications methods, and network data delivery methods. They will be able to list and describe all network media and
hardware components, including becoming knowledgeable on the specific differences between TCP/IP, LAN, and WAN network implementations. Students will learn the services deployed on each major type of network implementation as well as identify the primary network operating systems. Students will study important network protocols, technologies in network security, and data storage technologies. They will also gain the skills to identify major issues, models, tools, and techniques in network troubleshooting and disaster recovery. Students will be prepared to sit for the CompTIA® Network+ certification exam. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**COP1000 Problem Solving**  2 Credit Hours
(15 theory hours; 45 lab hours; 15 prep hours)
In this unit, students study techniques for web design and programming which have a root in mathematics. The goal of this unit is to get students to know how to emulate randomness, understand asynchronous programming and callbacks, use the modulus operator to restrict execution flows and avoid out of bounds exceptions, write effective if statements (by recognizing occurrences of DE Morgan’s laws as well as the distributive property of ands and ors), and understand if-else chains and negation. **Pre-requisite(s):** WEB1010 and WEB1100; **Class Type(s) Offered:** (O) Online  (R) Residential

**CTS0227 Cisco Routing and Switching I**  2 Credit Hours
(15 theory hours; 45 lab hours; 15 prep hours)
Upon successful completion of this course, students will be able to meet the following objectives: plan routing services to meet requirements; implement an EIGRP-based solution; implement a scalable multiarea Network OSPF-based solution; implement an IPv4-based redistribution solution; implement Path Control; and implement and verify a Layer 3 solution using BGP to connect an enterprise network to an internet service provider. After completing this course, the student should be able to: analyze campus network designs; implement VLANs; spanning tree and inter-VLAN routing in a network campus; implement high-availability technologies and techniques using multilayer switches in a campus environment; implement security features in a switched network; and integrate WLANs into a campus network and accommodate voice and video in campus networks. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**CTS0327 Cisco Routing and Switching II**  2 Credit Hours
(15 theory hours; 45 lab hours; 15 prep hours)
Upon successful completion of this course, students will be able to meet the following objectives: plan routing services to meet requirements; implement an EIGRP-based solution; implement a scalable multiarea Network OSPF-based solution; implement an IPv4-based redistribution solution; implement Path Control; and implement and verify a Layer 3 solution using BGP to connect an enterprise network to an internet service provider. After completing this course, the student should be able to: analyze campus network designs; implement VLANs; spanning tree and inter-VLAN routing in a network campus; implement high-availability technologies and techniques using multilayer switches in a campus environment; implement security features in a switched network; and integrate WLANs into a campus network and accommodate voice and video in campus networks. **Pre-requisite(s):** CTS0227

**CTS0237 Introduction to Windows Servers**  2 Credit Hours
(15 theory hours; 45 lab hours; 15 prep hours)
This course introduces students to a number of tools and technologies available to help plan a migration to Windows Server® 2012. By gaining the skills to identify the various migration tools available, planning for individual installations on servers, and configuring and activating the servers after installation, students will learn how to establish a basic Windows Server® 2012 environment. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**CTS0337 Administering Windows Servers**  2 Credit Hours
(15 theory hours; 45 lab hours; 15 prep hours)
This course provides the skills and knowledge necessary to implement a core Windows Server 2012 infrastructure in an existing enterprise environment. It collectively covers implementing, managing, maintaining and provisioning services and infrastructure in a Windows Server 2012 environment. This course focuses on the administration tasks necessary to maintain a Windows Server 2012 infrastructure such as configuring and troubleshooting name resolution, user and group management with Active
Directory Domain Services (AD DS) and Group Policy, implementing Remote Access solutions such as DirectAccess, VPNs and Web Application Proxy, implementing Network Policies and Network Access Protection, Data Security, deployment and maintenance of server images, as well as update management and monitoring of Windows Server 2012 environments. **Pre-requisite(s):** CTS0237; **Class Type(s) Offered:** (O) Online  (R) Residential

**CTS0247 Linux**  
(15 theory hours; 45 lab hours; 15 prep hours)  
This course introduces the basics of the Linux command-line interface (CLI) and some of the built-in CLI commands. Students will understand what a shell is, how to navigate the file structure of a Linux Operating System, piping commands, creating shell scripts, using regular expressions, and using vi. Students will also learn how to manage the file system, administer user and group permissions, configure hardware, and configure networking interfaces. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**CYS0253 Ethical Hacking and Network Defense**  
(15 theory hours; 45 lab hours; 15 prep hours)  
In this course, students will learn to understand how attackers compromis networks both in the private and public sector and learn to conduct test attacks on their networks as a way to discover vulnerabilities before attackers do. Students will also learn about the different types of port scans and how to use port-scanning tools, how to conduct ping sweeps, and how to use shell scripting to automate security tasks. **Pre-requisite(s):** CET0100 and CNT0115; **Class Type(s) Offered:** (O) Online  (R) Residential

**EMR1025 Record Management & Informatics**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to provide students with training in common medical file systems. Students will learn how to initiate and maintain new files, patient charts, maintain clean forms and organize information in chronological order. Emphasis will be place on the computational, cognitive and social aspects of Informatics in the medical office. Students will learn about electronic medical record systems and their benefits. This course will introduce computer skills to prepare students for working using electronic record systems. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**GEN132 Employability/Career Planning Skills**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to prepare the students for job search and career development. Resume writing, interview techniques, dress code and appearance, forms completion, follow up skills, as well as what employers may be looking for in a prospective employee. Topics emphasize how to maintain certification and State’s registry, continuing education, and learn how to manage stress and stressors. Information on Medical Assistant Certification and requirements for job placement will be reviewed. Information including professional ethic, guides to trade associations and memberships. **Pre-requisite(s):** None

**HHA101/0110 Home Health Care - Foundation of Patient Care**  
(15 theory hours; 15 lab hours/ 0 prep hours)  
This course introduces the students in the home health care services, the history and purpose of the home care, and the role of the Home Health Aide, the care team and care plan, professionalism, and the legal and ethical aspects. In addition, the course includes the foundation of patient care, communication techniques, infection control, safety and body mechanics, as well as medical emergencies and disaster guidelines. **Pre-requisite(s):** None

**HHA0120 Client Care, special clients and special needs**  
(15 theory hours; 15 lab hours; 0 prep hours)  
This course emphasizes in develop the student’s skills in the patient care techniques, maintaining mobility, skin care, and comfort, the personal care procedures, such as bathing, grooming, toileting, taking vital signs, I & O, catheter care, etc. In addition, focuses in special clients with special needs, such as clients with disabilities and mental illness, arthritis, cancer, diabetes, Alzheimer’s disease, etc. Students will demonstrate knowledge of HIPAA guidelines, and the general laws and ethical responsibly of healthcare workers. Student will learn to communications skills concepts and understand the developmental
principles of the life cycle. In services given in this course: HIPAA, OSHA, Domestic Violence, HIV, Alzheimer's Disease. **Pre-requisite(s):** None

**HHA103/0130 Understanding Your Clients and Home Management and Nutrition 25**
**Clock Hours (15 theory hours; 15 lab hours; 0 prep hours)**
This course focuses in the aspects of culture and family: basic human needs, cultural differences, and families; the aspects of body systems: common disorders and observing and reporting; and the aspects of human development such as stages/common disorders, aging, death, and hospice care, also this course will orient to the student in the client’s environment, housekeeping, laundry, bed making, client’s proper nutrition, special diets, and managing time and money. BLS for Healthcare Providers (CPR) course is included. **Pre-requisite(s):** None

**MAR1000 Digital Marketing Techniques, Strategy, and Analysis 2**
**Credit Hours (15 theory hours; 45 lab hours; 15 prep hours)**
In the world of digital marketing, content reigns supreme. In this course, you will learn how to use trial and error to identify an audience and develop a content strategy that goes hand in hand with your target audience. You will also learn how to measure the impact of your content strategy, and you will see case studies to discuss the importance of creating a brand holistically through every medium (Social, Search, Print, etc.). You will put all this work to good use by developing a content site with a lead catching mechanism to start building a real audience of real users. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**MAR1010 Effective Engagement in Digital Marketing 2**
**Credit Hours (15 theory hours; 45 lab hours; 15 prep hours)**
The goal of this course is to teach you how to acquire, convert, and retain customers, then how to optimize conversions. You will learn the main means of customer acquisition in digital marketing and how to think about audiences and engagement. You will also learn how to improve conversion rates by using well established techniques in call to action and landing page design, and how to use drip marketing to increase conversions and improve customer retention. Finally, you will learn how to employ A/B testing and analytics to continuously fine-tune various aspects in your sales funnel – from initial impression to repeat business. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**MAS103 Pharmacology 3**
**Credit Hours (45 theory hours /15 lab hours; 15 prep hours)**
Dosage and calculations are the basic concepts of this course. Students will develop the knowledge needed to understand basic dosage orders, as well as measure and record calculations for such dosages. **Pre-requisite(s) None**

**MAS105.AHP1020 Medical Insurance and Medical Office Procedures 3**
**Credit Hours (45 theory hours; 15 lab hours; 15 prep hours)**
Upon completion of this course, students will demonstrate professional and appropriate phone technique, explain the role of the medical assistant in the medical office, demonstrate appropriate professional behavior for the medical office, explain the use and function of computers in the medical office, demonstrate appropriate written communication skills and mail processing, demonstrate cordial courteous and professional patient reception, and patient processing. The students will develop the basic skills necessary to initiate the claims development procedures of the medical office. Students will learn how to collect pertinent insurance information, integrate it into a patient’s file, complete billing forms, perform procedural and diagnostic coding and communicate with insurance companies. **Pre-requisite(s):** None; **Class Type(s) Offered:** ((H) Online with 1 day on campus  (R) Residential

**MAS109 Record Management & Informatics 3**
**Credit Hours (45 theory hours; 15 lab hours; 15 prep hours)**
This course is designed to provide students with training in common medical file systems. Students will learn how to initiate and maintain new files, patient charts, maintain clean forms and organize information in chronological order. Emphasis will be place on the computational, cognitive and social aspects of
Informatics in the medical office. Students will learn about electronic medical record systems and their benefits. This course will introduce computer skills to prepare students for working using electronic record systems. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**MAS111/1015**  
**Introduction to X-ray and Diagnostic Imaging**  
3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours)  
This course prepares students to prep and perform limited X-Ray work on extremities and body region. Students will learn about machine maintenance, principal of use, safety precautions and X-Ray procedures. The course is also designed to provide a basic knowledge on other imaging procedures including MRI, CT as well as Ultrasound. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**MAS113/1050**  
**Patient Preparation and Clinical Procedures**  
3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours)  
Students will study patient care concepts involved in preparing patients for a medical examination or specialized test. Students will learn appropriate draping procedures, procedures for preparation for minor surgery, interpersonal skills required for patient communication, and the importance of maintaining well stocked, clean and well-prepared examination areas. **Pre-requisite(s):** None; **Class Type(s) Offered:** (H) Online with 1 day on campus  (R) Residential

**MAS115/1020**  
**Specialized Medical Exams -Phlebotomy & HIV**  
3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours)  
In this course, students will learn the basic concepts behind laboratory testing. Students will learn phlebotomy skills, use of Vacutainer, proper techniques involved in collecting biological specimens and material, appropriate storage and processing. Students will also learn how to perform urinalysis, hematology testing, immunology testing, and other labs performed in the medical office and laboratories. Students also receive the 4-hour HIV training. **Pre-requisite(s):** None; **Class Type(s) Offered:** (H) Online with 1 day on campus  (R) Residential

**MAS117/1025**  
**Specialized Medical Exams - (EKG/ECG)**  
3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours)  
The course is designed to introduce basic principles of ECG. Students will be prepared to performed electrocardiogram procedure including the recording of the traces as well as ability to read them and recognize cardiac disorders. **Pre-requisite(s):** None; **Class Type(s) Offered:** (H) Online with 1 day on campus  (R) Residential

**MAS121/1500**  
**Medical Assistant Externship**  
2 Credit Hours  
(160 externship hours)  
This 160-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the working medical office. Students will gain exposure to "on-the-job experiences and training in the Medical Office setting and practice of skills, gaining experiences in all aspects of assisting patient’s physical examination, vital signs electrocardiography, phlebotomy as well as office procedures, and administrative duties. **Pre-requisite(s):** Successful completion of all required courses. (W) Work-based

**MHT1002**  
**Mental Health I**  
3 Credit Hours  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to Introduce students to mental health including definition and causes of mental disorders as well as treatment modalities. Students will learn the 10 classes of drugs with Substance-Related and Addictive Disorders including prevalence, risks, consequences, prevalence, intoxication, and Withdrawal. This course will also provide Knowledge of Maslow’s hierarchy of needs, physical responses to stress, psychological responses to stress, ego defense mechanisms, stages of grief, and stages of growth and development while caring for the mental health patient. In-Service: Substance Abuse **Pre-requisite(s):** None

<td>In this course students develop the skills to perform patient care procedures, such as ambulation, output measurements, patient positioning, range of motion exercises, personal care, bed making, taking vital signs, and other important functions and procedures required in patient care. Students develop skills in patient care, specifically in physical comfort and patient safety. Students will learn the importance and the appropriate procedures and actions in creating a comfortable and safe environment for patients. Protocols for patient care include nourishment, nutrition and procedures for feeding patients. Students learn the importance of balanced nutrition, diabetic diets, other special needs diets, and essential nutrition principles for patients. During this course, students will also learn and practice mathematics and science knowledge as it relates to patient care skills; and how to use electronic medical record systems to document important patient information such as vital signs reading and notes regarding patient care. In-services: HIPAA, OSHA, Domestic Violence, Alzheimer’s Disease, Communication with Cognitively Impaired Client and Medical Records. <strong>Pre-requisite(s): None; Class Type(s) Offered: (R) Residential</strong></td>

</table>
|             | This course is designed to help students understand the needs of surgical patients, the common, chronic,
and acute conditions. Students will learn the standard protocols, physical care and comfort, appropriate communication with post-operative patients and their families. Also, this course is designed to provide safety, sanitation and emergency skills in the context of the Nursing Assistant. Students will learn to identify emergency situations from possible adverse pharmaceutical reactions, to cardiac arrest. Students will learn to survey each setting in which a patient is located in order to assess safety, and practice sanitation skills. Students will learn the process, techniques and procedures involved in rehabilitative care. Students will learn their role in the process of rehabilitation. This course also provides training in geriatric care. Students will learn communication techniques and real-world circumstances involved in caring for the elderly. Students will become oriented as to the purpose and history of patient care. Students will learn about the medical workers involved in patient care and the role of nursing assistants. Students will practice patient care skills and administrative skills; this includes newborn care and children with disabilities. Students will also practice employability skills such as the job search, interview techniques, resume writing, and employer expectations.

In Services: Assistance with Self-Administered Medication Training, Resident Right, Medical Errors, Cultural Competences, and Medical Records. Pre-requisite(s): None; Class Type(s) Offered: (R) Residential

NA0107 Procedures and Lab Skills 20 Clock Hours
(8 theory hours; 12 lab hours; 0 prep hours)
This course will provide the students with the important information concerning to the HIV/AIDS, history and development of the disease, procedures and protocols required for the caring of the AIDS patient, the stage of carrier, expectations, etc. The Basic Life Support for Healthcare Providers (BLS) Classroom Course is designed to provide a wide variety of healthcare professionals the ability to recognize several life-threatening emergencies, provide CPR, use an AED, and relieve choking in a safe, timely and effective manner. Upon completion of the course and passing the test the student will receive the BLS card from the AHA valid for two years. Also, in this course, the student will be prepared to take and assure a better passing rate of the Nursing Assistant Certification Board (CNA) exam which is the most recognized certification among employers. The course outline will follow the official CNA blueprint to ensure that every major topic will be covered and discussed during the total length of the course. In-Service: Infection Control, Bloodborne Pathogens and Hazardous Materials. Pre-requisite(s): None; Class Type(s) Offered: (R) Residential

NA0109 Nursing Assistant Clinical Learning Experience 40 Clock Hours
(40 clinical hours/ 0 prep hours)
This 40-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the field of study. The Nursing Assistant Clinical Learning Experience provides direct patient care under the direction of the RN professional to all assigned patients and maintains a safe patient area. He/she assumes responsibility and accountability for patient care as a team member in order to achieve established outcomes. Pre-requisite(s): Successful completion of all nursing assistant coursework. Class Type(s) Offered: Work-based

PCD1000 Career Development 3 Credit Hours
(30 theory hours; 30 lab hours; 15 prep hours)
This course is designed to prepare the students for job search and career development. Resume writing, interview techniques, dress code and appearance, forms completion, follow up skills, as well as what employers may be looking for in a prospective employee. This course is also designed to prepare the student to take and assure a better passing rate of the Nursing Assistant Certification Board (CNA) exam which is the most recognize certification among employers. The course outline will follow the official CNA blueprint to ensure that every major topic will be covered and discussed during the total length of the course. Pre- requisite(s): None; Class Type(s) Offered: (H) Online with 1 day on campus (R) Residential

PCT102/PCT1002 Fundamentals of Patient Care I 3 Credit Hours
(30 theory hours; 30 lab hours; 15 prep hours)
In this course students develop the skills to perform patient care procedures, such as ambulation, output measurements, patient positioning, range of motion exercises, personal care, bed making, taking vital signs, and other important functions and procedures required in patient care. Students develop skills in
patient care, specifically in physical comfort and patient safety. Students will learn the importance and the appropriate procedures and actions in creating a comfortable and safe environment for patients. Protocols for patient care include nourishment, nutrition and procedures for feeding patients. Students learn the importance of balanced nutrition, diabetic diets, other special needs diets, and essential nutrition principles for patients. **Pre-requisite(s):** None; **Class Type(s) Offered:** (R) Residential; (O) Online

**PCT104/PCT1004**  
**Fundamentals of Patient Care II**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to help students understand the needs of surgical patients, the common, chronic, and acute conditions. Students will learn the standard protocols, physical care and comfort, appropriate communication with post-operative patients and their families. Also, this course is designed to provide safety, sanitation and emergency skills in the context of the Nursing Assistant. Students will learn to identify emergency situations from possible adverse pharmaceutical reactions, to cardiac arrest. Students will learn to survey each setting in which a patient is located in order to assess safety, and practice sanitation skills. Students will learn the process, techniques and procedures involved in rehabilitative care. Students will learn their role in the process of rehabilitation. This course also provides training in geriatric care. Students will learn communication techniques and real-world circumstances involved in caring for the elderly. Students will become oriented as to the purpose and history of home health care. Students will learn about the medical workers involved in home health care and the role of the home health aide in the home health setting. Students will practice patient care skills and administrative skills involved in home health; this includes newborn care and children with disabilities. In Services: Assistance with Self-Administered Medication Training, and Resident Right. **Pre-requisite(s):** None; **Class Type(s) Offered:** (R) Residential (O) Online

**PCT106**  
**Patient Care Technician Procedures and Lab. Skills**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to provide student with knowledge on how to deal with the different types of wounds, wound healing, hot and cold applications and assisting patients with physical examinations. Student will learn how to deal with patient comfort, rest and sleep, mental and health problems, developmental disabilities. Student practices in applying hot compresses, dry sterile dressing, changing leg bag to a drainage bag, inserting catheters, giving tube feeding and setting up oxygen administration. **Pre-requisite(s):** None; **Class Type(s) Offered:** (H) Online with 1 day on campus (R) Residential

**PCT112/PCT1012**  
**NA Test & Skills Review**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to prepare the students for job search and career development. Resume writing, interview techniques, dress code and appearance, forms completion, follow up skills, as well as what employers may be looking for in a prospective employee. This course is also designed to prepare the student to take and assure a better passing rate of the Nursing Assistant Certification Board (CNA) exam which is the most recognize certification among employers. The course outline will follow the official CNA blueprint to ensure that every major topic will be covered and discussed during the total length of the course. **Pre-requisite(s):** None; **Class Type(s) Offered:** (H) Online with 1 day on campus (R) Residential

**PCT114**  
**Employability Skills/ NA Skills Review II**  
(30 theory hours; 30 lab hours; 15 prep hours)  
This course is designed to prepare the students for job search and career development. Resume writing, interview techniques, dress code and appearance, forms completion, follow up skills, as well as what employers may be looking for in a prospective employee. This course is also designed to prepare the student to take and assure a better passing rate of the Nursing Assistant Certification Board (CNA) exam which is the most recognize certification among employers. The course outline will follow the official CNA blueprint to ensure that every major topic will be covered and discussed during the total length of the course. **Pre-requisite(s):** None; **Class Type(s) Offered:** (R) Residential

**PCT116**  
**Patient Care Clinical Externship**  
(80 externship hours/ 0 prep hours)  
This 80-hour module is designed to provide the student with supervised, practical hands-on and
observational experiences in the field of study. The Student PCT Extern provides direct patient care under the direction of the RN professional to all assigned patients and maintains a safe patient area. He/she assumes responsibility and accountability for patient care as a team member in order to achieve established outcome. Pre-requisite(s): Success completion of coursework.

PCT1006 Patient Care Technician Procedures and Lab. Skills  2 Credit Hours  
(0 theory hours; 60 lab hours; 10 prep hours)
This course is designed to provide student with knowledge on how to deal with the different types of wounds, wound healing, hot and cold applications and assisting patients with physical examinations. Student will learn how to deal with patient comfort, rest and sleep, mental and health problems, developmental disabilities. Student practices in applying hot compresses, dry sterile dressing, changing leg bag to a drainage bag, inserting catheters, give tube feeding and setting up oxygen administration. Pre-requisite(s): None; Class Type(s) Offered: (R) Residential

PCT1012 NA Test & Skills Review  2 Credit Hours  
(0 theory hours; 60 lab hours; 5 prep hours)
This course is designed to prepare the students for job search and career development. Resume writing, interview techniques, dress code and appearance, forms completion, follow up skills, as well as what employers may be looking for in a prospective employee. This course is also designed to prepare the student to take and assure a better passing rate of the Nursing Assistant Certification Board (CNA) exam which is the most recognize certification among employers. The course outline will follow the official CNA blueprint to ensure that every major topic will be covered and discussed during the total length of the course. Pre-requisite(s): None; Class Type(s) Offered: (R) Residential

PCT1025 Patient Care Clinical Externship  1 Credit Hour  
(45 externship hours/ 0 prep hours)
This 45-hour clinical experience is designed to provide the student with supervised, practical hands-on and observational experiences in the field of study. The Student PCT Extern provides direct patient care under the direction of the RN professional to all assigned patients and maintains a safe patient area. He/she assumes responsibility and accountability for patient care as a team member in order to achieve established outcome. Pre-requisite(s): Success completion of coursework.

PHP1000 Fundamentals of PHP Development  2 Credit Hours  
(15 theory hours; 45 lab hours; 15 prep hours)
Explains how to install a LAMP system, do the most basic apache and MySQL configurations and introduces the basics of the PHP programming language. Students will learn the PHP syntax and how to use build-in PHP functions, how to submit information between pages, upload images, work with the session, contact a MySQL database and how to organize a PHP project to create scalable websites. Pre-requisite: None; Class Type(s) Offered: (O) Online (R) Residential

PHP2000 PHP Techniques and Framework  2 Credit Hours  
(15 theory hours; 45 lab hours; 15 prep hours)
This course reviews the basic PHP syntax and introduces Object Oriented Programming. Also details the MVC pattern, teaches how to develop large websites using a modern back-end framework like Phalcon PHP or similar, and how to add PHP libraries using composer. Students will learn how to use controllers and models efficiently, how to connect with the database using an ORM library and how to work with templates and layouts. Pre-requisites: WEB1010, WEB2000, WEB2040 and PHP1000

PHT1002 Pharmacy Law and Regulations  3 Credit Hours  
(45 theory hours; 15 lab hours; 15 prep hours)
This course is designed to give students the opportunity to learn key terms concerning Pharmacy Law and regulations, as well as to trace the history of federal laws affecting pharmacies today. The student will explore FDA, DEA, and HIPAA regulations and procedures and how these affect pharmacy technicians’ work. The Introduction to the classification of controlled substances and record keeping, ordering, and
storage processes will also be covered in this course. In addition to learning federal regulations, students will research their state’s laws and learn to determine which law prevails. Beyond the letter of the law, the student will have the opportunity to learn how to compare and contrast technicians’ tasks with pharmacists’ responsibilities, and they will be exposed to the interplay between morals, ethics, and liabilities in the pharmacy. **Pre-requisite(s):** None **Class Type(s) Offered:** (O) Online  (R) Residential

**PHT112/PCT1012  Pharmacy Principles and Practice  3 Credit Hours**
(45 theory hours; 15 lab hours; 15 prep hours)

This course is designed to prepare the student with the professional aspects of working in various pharmacy settings. The student will have the opportunity to learn key terms encountered in hospital pharmacies, retail and or community pharmacies, and long-term care facilities. The student will become familiar with the different hospital units, the stock they require, and the different functions they serve. The student will be introduced to the different Pharmacy Technician duties within each setting and how these differ from one another. The course will delineate the most common tasks performed by hospital pharmacy technicians compared to retail Pharmacy Technicians and disclose the pertinent information required for processing patient orders in the various settings. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**PHT116/ PHT1016  Pharmacy Calculations  3 Credit Hours**
(45 theory hours; 15 lab hours; 15 prep hours)

This course is designed to introduce the student to calculations and dimensional analysis formulas needed in the various Pharmacy settings. The analysis of these formulas will enhance students’ mathematical skills and demonstrate how these skills are applied to the daily duties of a Pharmacy setting. The student will achieve an overall understanding of business math and how it is employed in the general operation of a pharmacy. Students’ understanding of Pharmacy calculations will be reinforced through the use of hands on applications in the Pharmacy lab. **Pre-requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**PHT122/PHT1022  Pharmacology I  3 Credit Hours**
(45 theory hours; 15 lab hours; 15 prep hours)

This course is designed to give the student the opportunity to learn the basics of pharmacology, including: pharmacognosy, pharmacokinetics, pharmacodynamics, pharmacotherapeutics, and toxicology. Also included is the defining drug versus an ideal drug. The allied health professional’s responsibility to recognize adverse reactions, side effects, and toxic reactions to medications will be discussed. Drug interactions—food-drug and drug-drug—are also included in the course content discussed. are applications of medical terminology, Medications prescribed for the treatment of illness and disease based on a body systems method. **Pre- requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**PHT124/PHT1024  Pharmacology II  3 Credit Hours**
(45 theory hours; 15 lab hours; 15 prep hours)

This course is designed as a continuation of Pharmacology I, new students will be able to commence as well, the course contains a review of pharmacology key terms and medical terminology; which will allow the student to assimilate the material of the course. Subjects included in this course, will mainly focus on drug classifications used for the following body systems: Cardiovascular, Muscle-Skeletal, Respiratory, Nervous, Endocrine/Lymphatic and Gastrointestinal Systems. Out-of-class activities will be assigned and assessed as part of this module. Instructor may provide additional resources or materials as a part of the lesson plan. **Pre- requisite(s):** None; **Class Type(s) Offered:** (O) Online  (R) Residential

**PHT132/PHT1032  Introduction to Sterile and non-Sterile Compounding  3 Credit Hours**
(45 theory hours; 15 lab hours; 15 prep hours)

This course is designed to introduce the student to key terms and procedures used in compounding sterile and non-sterile products. The student will have the opportunity to understand USP 795 and USP 797 guidelines. The course will cover how to assign new expiration dates, how to use several kinds of balances, and how to document the compounding and repackaging process properly. The course will explore the reasons why pharmacies practice repackaging and compounding and will be introduced to the various risks, responsibilities, and benefits—both to pharmacies and to pharmacists—of repackaging and compounding. The student will have the opportunity to understand proper aseptic technique as it applies to
working with these items in both horizontal and vertical flow hoods and the care of the flow hoods and the types of stock and medications used in an IV room as well as special considerations needed for some medications. Pre-requisite(s): None; Class Type(s) Offered: (H) Online with 1 day on campus (R) Residential

PHT136/PHT1036 Pharmacy Information Systems 3 Credit Hours
(45 theory hours; 15 lab hours; 15 prep hours)
This course is designed to introduce the student with Pharmacy-related computer applications for documenting the dispensing of prescriptions or medication orders such as maintaining the electronic medical record, patient adherence, risk factors, alcohol drug use, drug allergies and side effects. The course will include the explanation of Databases, pharmacy computer applications, and documentation management. The importance of user access, drug database, interface, inventory reports, usage reports, override reports and diversion reports will be highlighted in this course. The student will understand how these systems are utilized in the billing and reimbursement procedure in pharmacies. Contents covered will also include Reimbursement policies, Insurance plans, Third party resolution and Coordination of benefits. Students will gather further knowledge of Pharmacy Information systems with hand on computer skills with training software. This course will also teach typing skills as part of the laboratory activities. Pre-requisite(s): None; Class Type(s) Offered: (O) Online (R) Residential

PHT142/PHT1042 Pharmacy Technician Certification (PTCE) Exam Preparation 3 Credit Hours
(45 theory hours; 15 lab hours; 15 prep hours)
This course is designed to prepare the student for the Pharmacy Technician Certification exam (PTCE). The course includes various electronic practice exams that mimic the certification exam format and exam requirements. Students will be presented with several test taking strategies and technique to increase their chances of passing the exam and gaining certification with a passing score. The Official PTCB blueprint is reviewed with the students as well as familiarity with the PTCB website. Out-of-class activities will be assigned and assessed as part of this module. Students will learn employability skills including how to complete an employment application and how to create a resume. Importance of soft skills will be emphasized. Pre-requisite(s): PHT1002, PHT1012, PHT1022, PHT1024, PHT1032, PHT1036; Class Type(s) Offered: (H) Online with 1 day on campus (R) Residential

PHT152/PHT1200 Pharmacy Technician Externship 2 Credit Hours
(160 externship hours/ 0 prep hours)
This 160-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to “on-the-job” experiences and training in the pharmacy setting and practice of skills, gaining experiences in all aspects of drug preparation, and distribution utilized by participating sites. Pre-requisite(s): Successful completion of PHT courses and a GPA of 2.0; Class Type(s): (W) Work-based experience

PRN0100 Practical Nursing Concepts 1 11 Credit Hours
(120 theory hours; 30 lab hours; 120 clinical hours/ 67.5 prep hours)
This course introduces the student to the integrated process and basic concepts of client needs across the lifespan, including the family, and community. Students will develop general knowledge and skills related to providing basic nursing care to clients from varied backgrounds, beliefs and cultures. Emphasis are given in developing communication skills and in coordinating care with other health providers. Though nursing assessment is not a main function of a licensed practical nurse, other aspects of the nursing process and evidence-based practice are taught in detail as bases of nursing practice. Foundation of medical surgical nursing, geriatrics, pediatrics, and obstetrics concepts of health, wellness, illness cultural and spirituality are introduced. Nursing practice of informatics and documentation are integrated into the care of clients, family, and community. Focus will be placed on LPN’s role in the health care team and legal aspects of practice. Course content includes providing safe and effective care environment, which incorporate; patient advocacy, concepts of management and supervision, legal responsibilities, establishing priorities, and referral process. Basic nursing skills are also taught in this course including; practicing aseptic techniques and ways to prevent the spread of infection, assisting clients perform activities of daily living and personal care, performing wound care, and others. Taking vital signs, collection of laboratory specimens, and performing basic laboratory tests such as glucose monitoring, and others are
also taught in the course. Students are prepared for the NCLEX-PN Exam using the NCSBN NCLEX_PN Blueprint as a guide. **Prerequisite(s):** None  **Class Type(s):** (R) Residential

**PRN0150  Pharmacology** 3 Credit Hours  
*(45 theory hours; 0 lab hours; 11.25 prep hours)*

This course introduces the student to basic principles of pharmacology and safe administration of medication throughout the client’s lifespan. A review of the body structure and function as well as legal aspect of nursing practice will be reviewed. Basic pharmacological concepts of pharmacodynamics and pharmacokinetics will be discussed as bases in medication administration to all categories of clients, from pregnancy, newborn, pediatrics, and geriatrics, using the nursing process and evidenced-based nursing practice. The course will cover medication classifications for common medical-surgical conditions, diseases and illnesses including contraindication, side effects, adverse effects, and most importantly nursing care and management of clients taking the medications, drugs, and herbal preparations. Students are prepared for the NCLEX-PN Exam using the NCSBN NCLEX_PN Blueprint as a guide. **Prerequisite(s):** None  **Class Type(s):** (R) Residential

**PRN0300  Practical Nursing Concept 3** 15 Credit Hours  
*(150 theory hours; 0 lab hours; 224 clinical hours; 67.5 prep hours)*

This course allows the student to provide care of clients with medical-surgical related acute and chronic related illnesses and injuries across the lifespan. More specialized medical and surgical conditions are covered in the course, such as, care and coordinating care of clients with cancer, burns, sensory deprivation, and emergency. The student will provide care to the client, family, and community demonstrating competency and leadership while reinforcing health promotion and maintenance concepts. Specialized care of obstetrical, newborn and pediatric clients in various healthcare environments will also be introduced. The student will apply knowledge and skill to the care of the client and family with a focus on safe care, growth and development principles, and legal aspects of practice. Students are prepared for the NCLEX-PN Exam using the NCSBN NCLEX_PN Blueprint as a guide. **Prerequisite(s):** PRN0100, PRN0150,PRN0200;  **Class Type(s):** (R) Residential

**PRN0400  Practical Nursing Concept 4 Capstone** 13 Credit Hours  
*(150 theory hours; 0 lab hours; 158 clinical hours; 67.5 prep hours)*

Develop knowledge, skills, and positive attitude in providing care to clients with acute, chronic, and life-threatening conditions This course allows the student to analyze knowledge, skills, and competencies acquired through previous course work. The student will identify areas requiring further development in the care of the client across the lifespan with a focus on the integrated process, client needs, and quality and safety in healthcare. Concepts of medical surgical, obstetrics, pediatrics, geriatrics, family, community health, nutrition, human growth and development throughout the lifespan, body structure and function, interpersonal relationship skills, mental health concept, pharmacology and administration of medication, legal aspects of practice, leadership skills, professional role and functions, and personal concepts are reviewed. Prevention of Medical Errors, Florida Laws and Rules, Recognizing Impairment at the Workplace, Domestic Violence, HIV/AIDS, Human Trafficking are covered in the course as required for registration by the board of nursing. Students are prepared for the NCLEX-PN Exam using the NCSBN NCLEX_PN Blueprint as a guide. **Prerequisite(s):** PRN0100, PRN0150, PRN0200, PRN0300;  **Class Type(s):** (R) Residential

**UIX1000  UI/UX Design** 2 Credit Hours  
*(15 theory hours; 45 lab hours; 15 prep hours)*

This course will teach students the tools and conceptual framework for the process of user interface design. Students will learn about user flows, low res wireframes, tools and techniques for rapid prototyping of apps and websites and learn the basics of user research. **Pre-requisite(s):** None;  **Class Type(s):** (O) Online (R) Residential

**WEB0900  Design Principles** 2 Credit Hours  
*(15 Theory hours; 45 Lab Hours;15 Prep Hours)*

In this unit, students will learn the basics of web design and start working with graphical tools like web flow and the Adobe Creative Suite. Students will learn about raster and vector graphics, image manipulations, filters, principles of design composition, composing multiple images, symmetry, balance, choosing good color pallets and they will compose full wireframe for a website that they will create in the future.
Pre-requisite(s): None; Class Type(s): (O) Online (R) Residential

WEB1000  Basic Front-End Programming (JavaScript, HTML5, CSS)  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
Students learn how to work through documentation of CSS frameworks by using Bootstrap and Materials to create grid-based layouts. They also learn the basics of material design, forms posting, intro to JavaScript (variables, if statements, loops, simple objects, and attacking event handlers), selecting elements with jQuery, modifying the contents of elements with jQuery, and sending AJAX requests with jQuery. The expected level of proficiency by the end of the course is being able to use a CSS framework to design a responsive grid, knowing enough code to solve simple algorithmic challenges like aggregating the elements of an array, and knowing how the request-response model works and thus being able to do very basic Ajax programming using jQuery. Pre-requisite(s): None; Class Type(s): (O) Online (R) Residential

WEB1010  Basic Front-End Programming  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
Students learn how to work through documentation of CSS frameworks by using Bootstrap and Materials to create grid-based layouts. They also learn the basics of material design, forms posting, intro to JavaScript (variables, if statements, loops, simple objects, and attacking event handlers), selecting elements with jQuery, modifying the contents of elements with jQuery, and sending AJAX requests with jQuery. The expected level of proficiency by the end of the course is being able to use a CSS framework to design a responsive grid, knowing enough code to solve simple algorithmic challenges like aggregating the elements of an array, and knowing how the request-response model works and thus being able to do very basic Ajax programming using jQuery. Pre-requisite(s): None; Class Type(s): (O) Online (R) Residential

WEB1100  Fundamentals of JavaScript Development  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
This unit is devoted to learning advanced JavaScript techniques such as event delegation, different types of Ajax requests (including jsonp), interacting with a firebase back-end and also with the Wikipedia api. Students will also receive an introduction to node.js and work through developing a template for a site with the Wikipedia api. Students will also learn how to work through documentation of CSS frameworks by using Bootstrap and Materials to create grid-based layouts. They also learn the basics of material design, forms posting, intro to JavaScript (variables, if statements, loops, simple objects, and attacking event handlers), selecting elements with jQuery, modifying the contents of elements with jQuery, and sending AJAX requests with jQuery. The expected level of proficiency by the end of the course is being able to use a CSS framework to design a responsive grid, knowing enough code to solve simple algorithmic challenges like aggregating the elements of an array, and knowing how the request-response model works and thus being able to do very basic Ajax programming using jQuery. Pre-requisite(s): WEB1010; Class Type(s): (O) Online (R) Residential

WEB2000  Intermediate Front End Structure  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
Students will learn about html5 semantic elements, basics of the shadow DOM, HTML 5 templating, work with the canvas object, design html emails using tables, performance optimization of webpages, and basics of UX design. General workplace health and safety is discussed along with what to do in emergencies such as fire and natural disasters. Pre-requisite(s): WEB1010 and WEB1100; Class Type(s): (O) Online (R) Residential

WEB2020  Intermediate Styling Techniques  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
This course teaches students about the principles of web typography, picking font schemes, working with SVG graphics, using pseudo-elements (:: after and ::before), use third party animation suites to create css effects, and takes a deeper dive into bootstrap and learning about using it to easily create sliders and other components. Students will also have the opportunity to work on two Ajax applications to fine-tune their front-end programming skills. Pre-requisite(s): WEB1010 and WEB1100

WEB2040  SQL Databases  2 Credit Hours
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)
This course emphasizes what developers need to know about SQL. Students go through ample practice with nested selects and joins, loading pre-existing datasets into a sql database using the shell, locating and fixing errors in a table, understanding foreign keys and relationships between entities, and creating tables of appropriate data types. An intro to NoSQL is also given, with some basic exercises. This course also serves as a Node.JS introduction and AJAX refresher, as students develop CRUD APIs on NodeJS
working on a SQL database as well as on NoSQL. **Pre-requisite(s):** WEB1010 and WEB1100

**WEB2900 Modern Front-End Frameworks**  
2 Credit Hours  
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)

In this course, students learn the in-depth workings of a modern MV* front end framework (AngularJS or React) and the MV* design pattern in general. They will develop two applications of their own using a modern front-end framework. **Prerequisites:** WEB1010 and WEB1100, COP1000, WEB2000, WEB2010, WEB2020 and WEB2040

**WPS1000 Introduction to WordPress**  
2 Credit Hours  
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)

In this course, Students will take a deeper Dive into Node.JS. Students will learn how to handle request parameters, query strings, session data, and cookies. They will also learn how to do OAuth authentication with Facebook, Twitter, and Google, and how to connect to a database. An introduction to Object-oriented programming in JS is also given. **Prerequisites:** COP1000, WEB2000, WEB2010, WEB2020 and WEB2040

**WPS2000 Advanced WordPress Concepts**  
2 Credit Hours  
(15 Theory hours; 45 Lab Hours; 15 Prep Hours)

Students will learn advanced WordPress concepts like creating and altering their own themes, implementing subthemes and building widgets and plugins. Students will learn how to use HTML, JavaScript and PHP to improve the functionality of WordPress and create a website tailored to the specifications of a customer. Students will learn how to update current themes and plugins and how to make an HTML template into a WordPress theme. **Prerequisites:** WEB1010, WEB2000, PHP1000, WEB2040 and WPS1000.

**Important Note:** Class schedules are subject to change without notice. Current students will not be affected by any program change or cancellation. School closure for inclement weather situations will follow public school closures for Miami-Dade or Broward County. It is the responsibility of the student to apply for graduation according to the deadlines published in the Calendar. **The Miramar campus only starts new classes - start dates with the asterisk(*).**

**Note:** Nursing Assistant /Home Health Aide Program schedules are published periodically.

The Photographs used on the cover of this publication are from stock.
